3. Technical parameters of vertical advertising machine products

Display size: 55/65 inch

Display resolution: 1920 × 1080 FHD

Image ratio: 16:9

Displays the size: (H*V mm) 1209x681

Complete machine brightness: 280cd/m² ±30

Trends Contrast ratio: 5000:1

Displays color: 16.7M

Refresh frequency: 60Hz

Visual Angle: H / V: 178 / 178 degrees

Backlight life: 120000 hour

Screen protection: 4mm MOHS 7 tempered glass

Weight: 78kg

System configuration: Board card scheme

CPU: A ARM A55 quad-core of 1.5GHz

RAM: 2 GB

ROM: Standard with 8 GB / optional 16GB / 32GB

System version: Android 9.0

USB joggle: USB2.0 * 2 Road

Video interface: HDMI input * 2 way

Other interfaces:

RJ45 Ethernet port * 1 way, DC-IN * 1 way, TF card seat * 1 way, 3.5mm Standard

Headphone jack * 1 way

Front box color: Black

Rear cover: Standard hardware and iron cover

Custom version:

According to the customer needs of the whole machine, the main board can be customized shipments according to customers

In addition, this model can be compatible with TV products, the front frame and backlight module common, accept large customer customization.
