

Quick Guide to

Sustainable Energy Solutions

“Delivering Unmatched Value & Expertise...”

Company Purpose and Values

Vision: Shaping solutions for a cleaner & greener world...

Mission: Through our pioneering approach, customer focus and industry expertise, we empower clients with innovative and sustainable energy supply solutions

Passionate

We are committed to our customers and engage with them to craft enduring supply solutions

Responsible

We address the needs of our customers with the highest standards of compliance and ethics

Unique

We engineer original supply solutions to help customers achieve their strategic goals in a restricted market

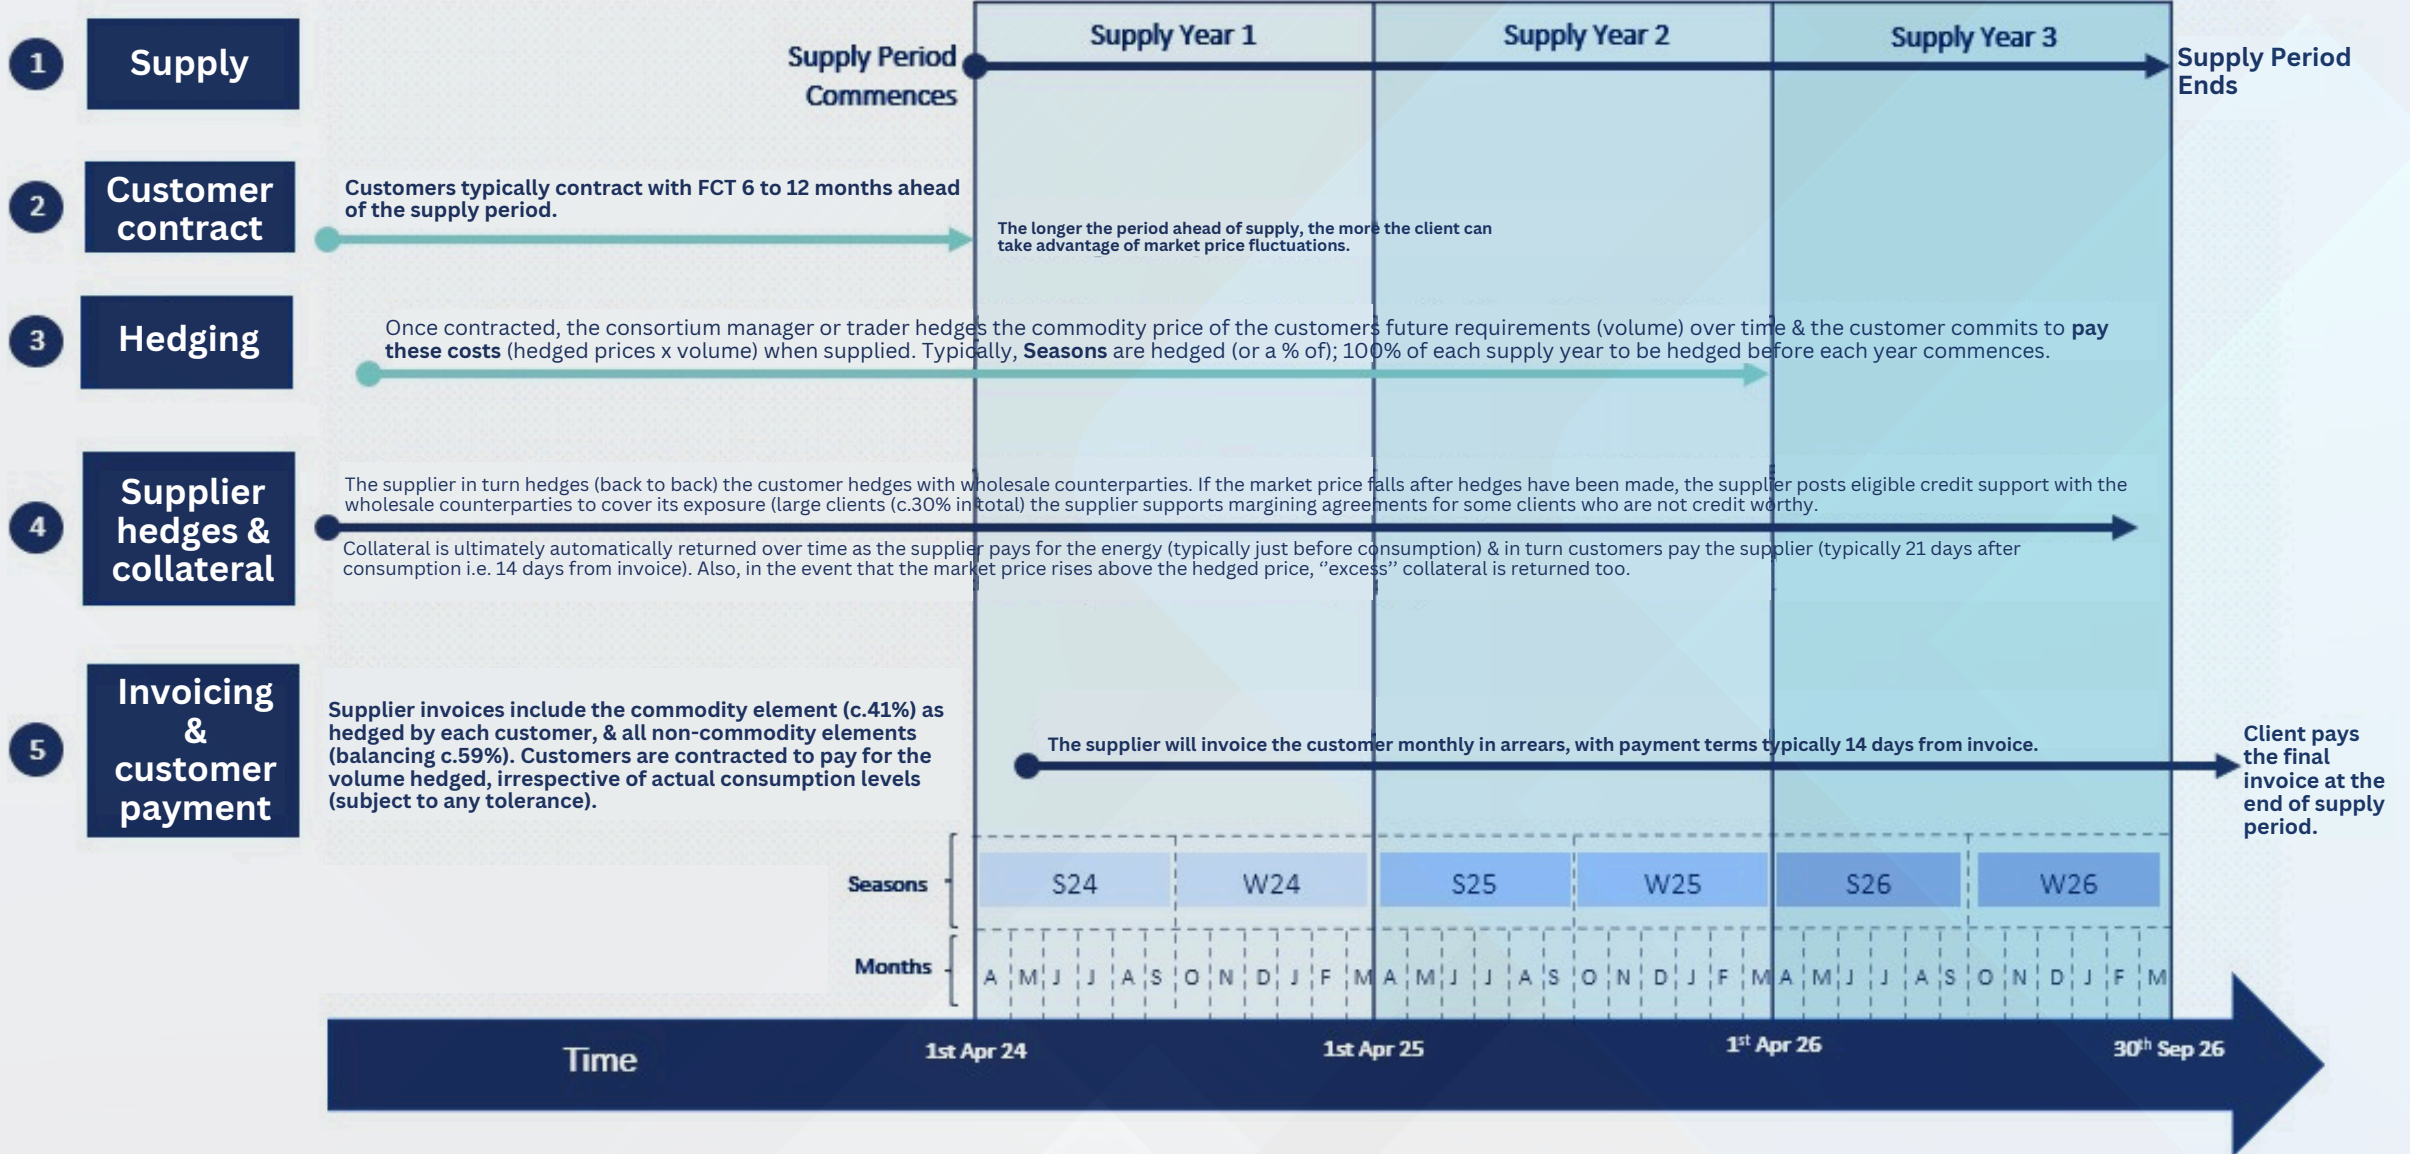

Honest

We communicate with complete clarity and transparency through all interactions

Together

We collaborate and build strategic relationships that enable our customers to achieve their decarbonisation goals

Flexible Energy Purchasing Model

FCT Portfolio

FCT Trades on individual frameworks & consortium at approx. 25GWh of power and 20GWh of natural gas.

FCT provides active Power Purchase Agreements (PPAs) covering, Hydro, Solar, Landfill Gas, Onshore Wind and Biomass CHP.

FCT provides REGO/RGGO's for 100% green energy and Export Guarantee Tariffs.

FCT provides a bespoke AI & traditional Energy Monitoring Software & Hardware.

FCT operates across all Distribution Networks supplying sites across the UK.

FCT has approximately 150 contracted customers covering approx. 300 supplies.

FCT specialises in large manufacturing, education, hospitality and fast food franchises.

FCT single biggest Automotive Manufacturing Customer supplied by volume is 6GWh for power and 8GWh for gas.

FCT has a proven track record of being able to effectively manage large, prominent multi-site estates, by pro-actively supporting daily operations.

FCT has been recognised as an independent energy consultancy and commodity trader, awarded by City Training Group as highly commended.

Two men are standing outdoors on a grassy area with trees in the background. They are both wearing dark blue V-neck sweatshirts with the 'FCT FUTURE ENERGY SOLUTIONS' logo on the left chest. The man on the left is smiling, and the man on the right is wearing glasses and has a beard. A large white quote is overlaid on the image.

**“Delivering
Unmatched Value
& Expertise...”**

Future Corporate Technologies, where energy expertise meets innovation!

Nestled in the North-East of England, with a satellite office in Leatherhead, Surrey, we are not just consultants; we are your dynamic partners in shaping a sustainable and efficient energy future for your business or organisation.

At the helm of FCT are the dynamic duo, Mark Crozier and Callum McHaffie; your go-to energy maestros. Armed with a wealth of experience, they lead a team of highly skilled consultants dedicated to helping businesses seize control of their utilities. From energy procurement to cutting-edge tools and services that slash operating costs and carbon footprints, we're here to make your journey to Net Zero seamless and impactful.

What sets us apart? It's our commitment to lasting relationships. We don't just consult, we collaborate. A consultative and fully transparent approach defines our ethos. Your success is our priority, and we offer unwavering support and guidance throughout your energy endeavours.

Fuelling our operations are sophisticated systems and cutting-edge technology; Think portals, CRM systems, and SAAS cloud-based platforms—all designed to ensure secure, rapid communication and data protection. We're not just consultants; we're your partners in navigating the intricate landscape of energy contracts, bills, and renewals.

A photograph of a man in a light blue shirt carrying a young child in a red shirt on his shoulders. They are standing on a grassy hill, looking towards a large white wind turbine in the background under a clear blue sky. The man's arms are outstretched, and the child is also reaching out their arms.

“Peace of Mind...”

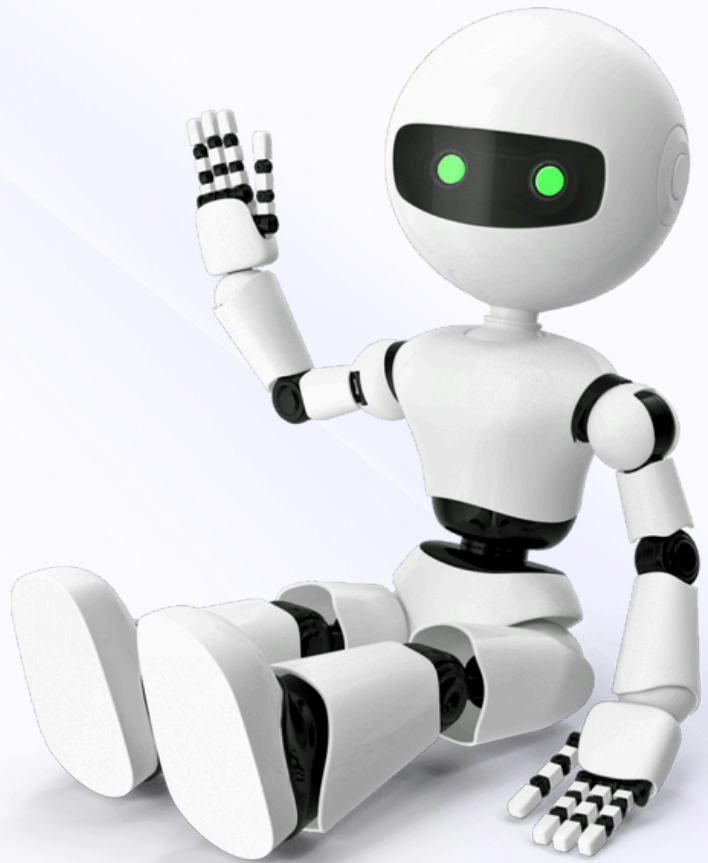

For your peace of mind... We're not just experts - we're specialists!

Whether it's fully fixed or flexible contracts, FCT brings a depth of knowledge and experience that sets us apart. We analyse, validate, and forecast with precision, thanks to our extensive network of third-party experts and day-to-day market activities.

But it doesn't end there. We're your one-stop-shop for all things energy-related; Monthly account management, new meter connections, energy monitoring, bill validation, carbon reporting—you name it, we've got it covered. Our mission? To collaboratively reduce your business energy costs and carbon footprint.

What makes us tick? Truth, ethics, and trust. We're not just about transactions; we're about building relationships founded on integrity. Your success is our success and we stand by that in every aspect of our business dealings.

Let's power up your success together!

emma **AI**

ENERGY MONITORING WITH ARTIFICIAL INTELLIGENCE

EMMA AI CAN HELP YOU IDENTIFY KEY WASTAGES - ASSISTING IN REDUCING YOUR ENERGY COSTS & CARBON.

Tired of seeing your energy bills skyrocket each month? You know you could be doing more to reduce your energy consumption, but just don't know where to start...

EMMA AI is an intelligent monitoring system designed for businesses tracking their Electric, Gas & Water usage in Real-Time. This information is essential in helping businesses understand their energy consumption and how they use their energy.

EMMA AI is the perfect partner to reduce your company's carbon footprint on the road to net zero.

EMMA AI will track your energy data and identify where energy is being wasted. Once identified, EMMA AI advises you directly of the problems.

You will receive simple, human-like instructions via email telling you what the problem was and how to fix it!

Empowering Your Business with Sustainable Energy Solutions.

Our team of renewable energy experts boasts over 200 years of combined experience in the renewable energy sector. This wealth of knowledge and proven success enables us to identify, develop, and manage high-potential renewable energy projects effectively. Our expertise spans the technical, operational, and financial aspects of large-scale energy projects, ensuring comprehensive solutions for our clients.

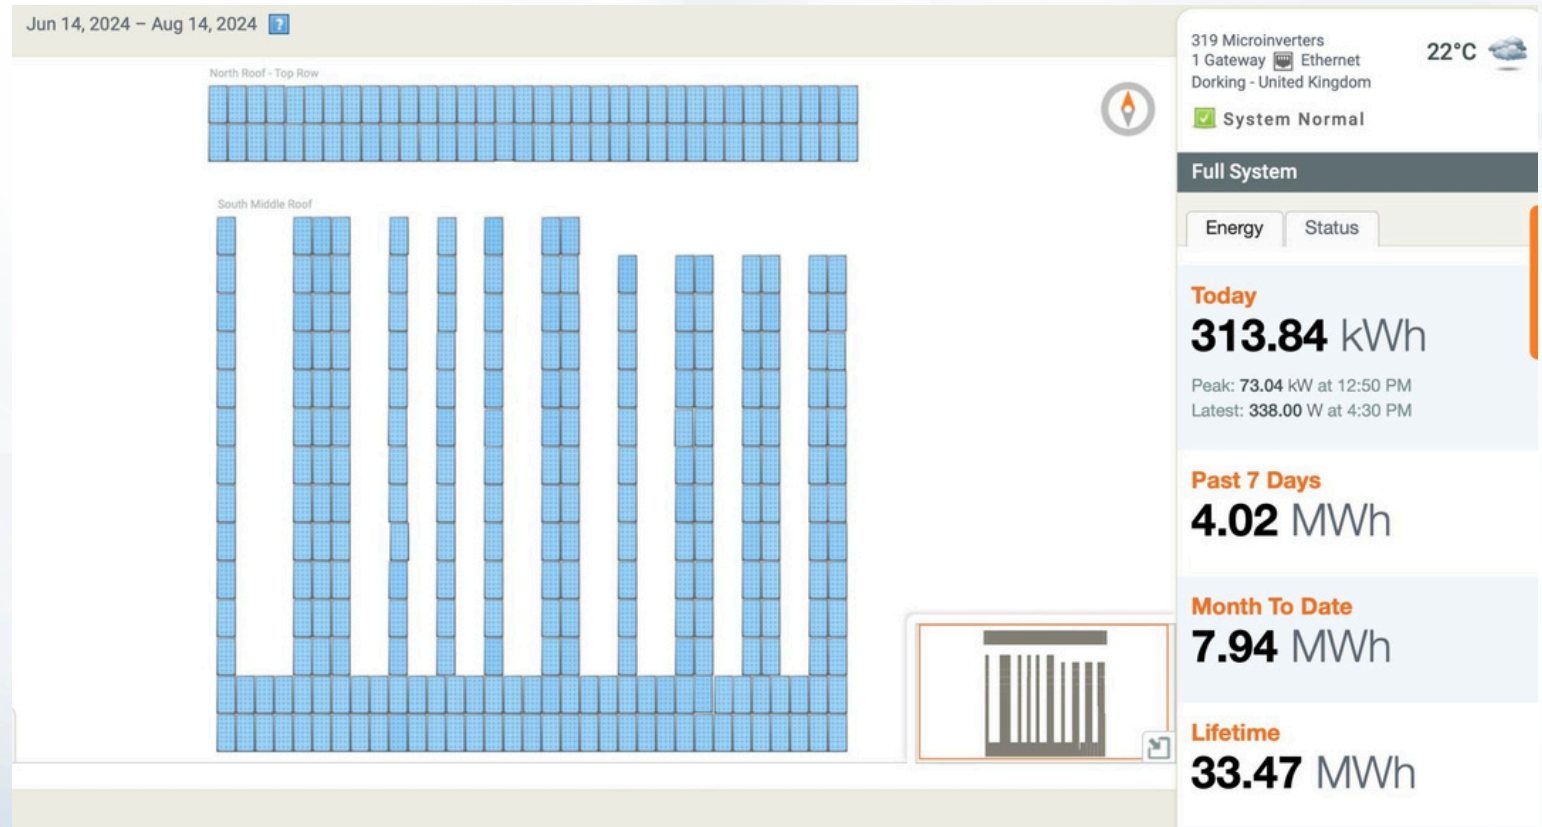

Our commitment to sustainability is evident through our strategic partnerships with leading renewable solution companies specializing in:

- Solar PV
- Tesla (ESS) Battery Storage
- Commercial EV Charging
- New Meter Connections

Nationwide Coverage for Your Renewable Energy Needs

FCT Energy Solutions has partnered with four top renewable solution companies to provide nationwide coverage. Our dedicated teams, based in Scotland, the Midlands, and the South East of England, are ready to support businesses and organizations across the UK.

“This 136 kWp solar array installed into a UK Automotive Manufacturer has generated enough solar power to power 6 family homes for 1 year... Just over the last 2 months!”

The background of the slide features a silhouette of two people climbing a rocky mountain peak. One person is at the top, leaning forward, while the other is below, reaching up. The scene is set against a bright, glowing sunset or sunrise sky, with the sun low on the horizon. The overall tone is warm and inspiring, suggesting achievement and teamwork.

Structured to support you

Well connected

Get access to wholesale market products on non-standard qualifying volume thresholds.

Relationships matter

We encourage Director level strategic engagement between supplier/customer.

Sustainability

We can support varied offtake solutions for CPPA's as well as options to purchase power backed by REGO, RGGO or GoO certificates which confirm the electricity generated comes from a renewable source.

Industry pioneers

We're set-up to provide front line ownership and resolution. We're conversant with TPA and Supply Class Exemptions and are undertaking 'live' projects.

Pragmatic

We can support non-standard billing and credit arrangements as long as these present no additional risk to BPG.

Net Zero

We can support your organisation's decarbonisation goals by sourcing renewable power from named UK or European generators.

Let's start a conversation

If you'd like to find out how we can bring structure and simplicity to your organisation through exceptional value and outstanding customer service, drop us a line. You're always welcome to visit us at our offices.
