

# CUSTOM VIP MEMBERSHIP FEES

Act like a VIP, get treated like one.

Create your custom VIP membership by selecting the service(s) you wish to receive regularly. You are free to select as many as you wish, however you must at least select one to opt-in.

Each service selected has it's own monthly membership fee, which will be charged on the 1st day of each month. You will then be locked into the first 6 months once you opt-in to your VIP membership. After that your membership will transition to month-to-month which you are free to cancel at anytime.

You only receive 50% off on the services you opt-in for, but again there is no limit as to how many you can choose.
