

Mission Driven Catholic offers a robust mentoring program for *new and experienced* Catholic school principals.

CATHOLIC SCHOOL PRINCIPAL

MENTORING PROGRAM

OUR PROGRAM

Our approach to executive mentoring is individualized and targeted to the needs of each principal. By establishing goals connected to the four critical areas of leadership, principals have the opportunity to prioritize their needs and work with an expert in making the mission-driven decisions necessary to increase their school's operational vitality, address student learning, build programs, and address their school's Catholic culture connected to the mission of the Church.

With access to a mentor, principals also have the opportunity to have an additional resource and support when dealing with the many difficult decisions that face them on a daily basis.

Our loose mentoring approach provides flexibility and access for Catholic leaders to grow professionally, lead their schools effectively, and keep in mind the important decisions necessary to help their schools flourish.

"Here at *Mission Driven Catholic*, we know that no two schools or two leaders are alike. Therefore, our individualized resources are developed to meet the unique needs of each school and person we serve. Through in-person and relational presence and consulting, we better meet the needs of Catholic school leaders and communities. "

Daniel R. Baillargeon, Ph.D.

PRINCIPALS WILL ESTABLISH GOALS

IN THE 4 CRITICAL AREAS OF LEADERSHIP:

- **Instructional Leadership**
- **Organizational Leadership**
- **Entrepreneurial Leadership**
- **Spiritual Leadership**

AND BE PROVIDED THE RESOURCES AND GUIDANCE TO ACCOMPLISH THESE GOALS

HOW IT WORKS

Mentoring services include two meetings a month, plus access at any time for advice or questions. We provide critical information regarding effective school leadership practice and counsel (if desired) with respect to the implementation of recommendations that flow from the conversations, including: personnel matters, recruitment, enrollment management, strategic planning, curriculum and resource support, assessment, data access, volunteer management, constituent relations, and other critical areas that are connected to student learning outcomes.

Mentoring is provided at a reasonable cost and can be paid for through federal funding as part of a school's professional development plan.

"I enjoyed working with Dan through the mentorship program. He listened well and provided targeted support based on my unique background, experience and questions. He has a generous spirit for sharing both wisdom and practical resources. A true partner on the journey."

~ D.B., Principal of Sacred Heart Cathedral School
