

Greening Industrial LLC

ENGINEERING & SUSTAINABLE DEVELOPMENT

Target & Mission

- The target for Greening Industrial LLC is promote the sustainability in all our Business and be the best partner for our customers.
- To get offers with great value and promote tailormade solutions is a difference for us. Clarity, precision and quality in all our services and projects it is our great value.
- Commitment with operational excellence

Capabilities and Target Market

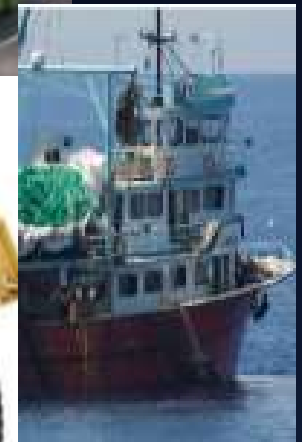

- Projects & Services:

- Mechanics
- Instrumentation & Control
- hydraulics
- Electrical
- Pipping
- Water Treatments

- Business

- Mining
- Energy
- Industrial
- Hydroelectric

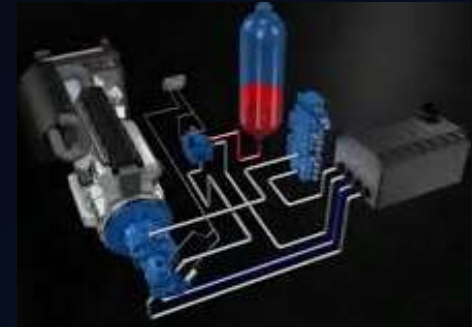

Projects

- Development Memories of calculation
- Design tailormade
- Design Water treatment plants
- Basic and detail engineering
- Drawings
- Manufacturing & Construction
- Comissioning & Post Service
- Technical Inspection

Analysis

Focus
definition

Tailormade

Services

- Maintenance for equipments:
 - HPU, Cilynders, Pumps, Valves.
- Piping in hydraulics, pulp lines, water and gas.
- Microfilter deshidratado y flushing for pipe lines in hydraulics (oil, gas, water).
- Condition monitoring in PID or PI.
- Optimization y rebuilt equipments (Overhaul)
- Service in site on piping, mechanics, instrumentation & control, hydraulics
Machinings in steel, stainless stell and other materials
- Manufacturing for especial machinings.
- Training on hydraulics, mechanics, electrical and instrumetation and control.
