

Monthly Indicators

September 2025

U.S. existing-home sales were virtually unchanged from the previous month, dipping just 0.2% to a seasonally adjusted annual rate of 4.0 million units, according to the National Association of REALTORS® (NAR). Most of these transactions went under contract in June and July, when mortgage rates were 40 to 50 basis points higher than current levels. Year-over-year, sales increased 1.8%, with the strongest activity occurring in the Midwest, where the typical home price is 22% below the national median.

New Listings increased 84.2 percent to 35. Pending Sales increased 29.4 percent to 22. Inventory increased 73.7 percent to 66.

Median Sales Price increased 6.2 percent from \$205,000 to \$217,750. Days on Market decreased 21.7 percent to 18. Months Supply of Inventory increased 87.5 percent to 3.0.

Nationally, housing inventory declined for the first time this year, slipping 1.3% month-over-month to 1.53 million units, representing a 4.6-month supply at the current sales pace, according to NAR. Despite the monthly drop, total inventory remained 11.7% higher than the same time last year. Meanwhile, the median existing-home price rose 2% year-over-year to \$422,600, though it was essentially flat compared to the prior month.

Historical Percent of List Price Received by Month

Housing Affordability Index

This index measures housing affordability for the region. For example, an index of 120 means the median household income is 120% of what is necessary to qualify for the median-priced home under prevailing interest rates. A higher number means greater affordability.

September

Year to Date
