The heavy rains that have occurred lately caused the culvert on N Lake Milona Drive and Tamarac to backup forcing water in Jerome’s garage. This was caused by the new culvert under Tamarac and will be watched when it rains so if it does happen again changes will have to be made to correct the problem. Special Assessment Hearing for Tamarac and Irene could be prior to our Oct meeting if all bills are in and notification time is available.

**New Business-** 16165 Bayview Drive washes out with the road sloped towards the lake. David will start sloping the road away from lake and back towards a drain to handle the water. Received an email from a resident on Smokey Timbers about another landowner doing donuts and spinouts on the road and would like us to send a letter deterring this action. Everyone is ok with the Grieves application for variance, Tom will let Dave Rush know.

**Floor-**15years and interest rate around 2.65% for the Krohnfeldt project is what is anticipated. West Milona Road culvert needs to be cleaned out. Culvert should be replaced.
