

Roof Treatment

The average cost to replace a shingled roof is \$25,000. The average cost to treat a roof is less than \$1,000.

-Asphalt roof shingles typically have a life expectancy of 20-30 years.

-Cedar roof shingles typically have a life expectancy of 30-40 years.

-Improperly, or unmaintained roofs, result in loss in life expectancy of anywhere from 5-15 years depending on your climate.

-Roof treatments kill the mold, algae, and gloeocapsa magma that deteriorate your roof.
