

# Residential Soft-wash

---

The average cost to replace a home's siding is \$15,000. The average cost to treat a home's siding is less than \$500.

-Cedar siding typically has a life expectancy of 20-40 years.

-Vinyl siding typically has a life expectancy up to 40 years

-Aluminum siding typically has a life expectancy up to 30 years.

-Stucco siding typically has a life expectancy up to 20 years.

-Improperly, or unmaintained siding, results in loss in life expectancy of anywhere from 5-15 years depending on your climate.

-A professional soft-washing can kill the mold, algae, and lichen that deteriorates your siding.
