

# City of Thompson Falls Pool Survey

**The City of Thompson Falls is seeking feedback on the city pool. The needed repairs, maintenance and operation costs exceed the fiscal resources available to operate the pool.**

## **The most pressing concerns:**

Replacement of the boiler system - \$40,000-\$150,000

A new filtration system - \$20,000

A structural crack in the bottom of the pool that may not be repairable.

## **A public pool benefits the whole community.**

Health: Improves fitness and reduces stress.

Safety: Swimming lessons help keep people safe.

Social: Brings people together and encourages connection and inclusion.

## **Your input is important!**

Scan the QR code below to complete a brief survey. And please don't stop there. Share your ideas or funding suggestions. This is a community effort!
