Good to know the amphitheater may still have a chance!
Thank you, Linda

Hi Linda,

Thank you for your response and for providing your perspective on the significance of this project to the community. We will take your comments into consideration as we proceed with the design work. I also wanted to mention that the proposed amphitheater is still part of the project, but may be an option that is bid as an alternate that can be removed from the project after bids are received if the total construction cost exceeds the available budget.

Thanks,

Stephanie Reynolds, P.E.

Stephanie,

The Ainsworth Community Park has great historic significance in our little town. Donated by a prominent family it was to be used by children and adults alike. It now will, once again, stand as a true jewel for our town.

The original concept showed with just a few improvements, how this uninteresting, tired and common little park can be a destination stop with the ability to host any number of events .

I feel it is vital to maintain continuity in the hardscape materials and landscaping which is already in place and on Main Street. Using natural materials found in this part of Montana will maintain the small town feel, genuine in nature. When this theme is carried through out town it is visually cohesive and pleasing.

I'm sorry to hear we may be losing the amphitheater, it has such potential.

But what is most important is that what is installed in this park is made of quality materials and local contractors are hired to the work.

Also, for clarity, the Memorial recently competed, it not VFW but simply Veterans Memorial.

Thank you for your consideration,

Linda Rocheleau

Subject: Ainsworth Community Park Project - Request for Comments

Hi Linda,

Please see the attached letter requesting comments for the proposed Ainsworth Community Park project in Thompson Falls, MT. This project was recently funded through CDBG and we are currently working through the environmental review and design process. Please let me know if you have any questions or would like additional information.

Thanks,

Stephanie Reynolds, P.E.
