

A wedding DJ checklist can help ensure your big day's music goes smoothly and keeps the dance floor packed. Here's a comprehensive rundown to keep you organized:

Pre-Wedding Prep:

- **Meet & Greet:** Schedule a consultation with your DJ to discuss your vision, musical preferences, and schedule for the ceremony and reception.
- **Must-Play & Do-Not-Play Lists:** Create a list of your favorite songs you want played and specific songs you don't want (think Grandma's least favorite Polka!).
- **Timeline & Cues:** Outline the wedding day's timeline, including ceremony music cues, introductions, dinner breaks, dances, and other key moments.
- **Guest Requests:** Decide if you'll allow open song requests or stick to your curated playlist. Consider offering request slips for later in the evening.
- **Equipment & Logistics:** Confirm the DJ's sound system, lighting setup, backup equipment, and power needs for your venue. Discuss any special requests like microphones for speeches or projector for slideshows.

Ceremony Music:

- **Processional:** Choose music for the bridal party and bride's entrance. Upbeat or romantic? Traditional or modern?
- **Recessional:** Select a joyous tune for your exit as newlyweds. Think celebratory and triumphant!
- **Special Music:** Consider music for readings, offertories, or unity candle lighting if applicable.

Reception Music:

- **Cocktail Hour:** Set the mood with a relaxed playlist of background music that complements your cocktail menu and venue ambiance.
- **Grand Entrance:** Pick a high-energy song for your grand entrance as a married couple. Make it memorable!
- **First Dance:** This is your special moment. Choose a song that's meaningful to your relationship and dance style.
- **Parent Dances:** Select heartfelt songs for the father-daughter and mother-son dances. Consider their musical taste and preferences.
- **Dinner Music:** Maintain a pleasant ambience with a mix of genres and tempos during dinner. Keep the volume moderate for easy conversation.
- **Dance Floor Fun:** Create a mix of high-energy party tracks and classic crowd-pleasers to get everyone moving. Consider your guest demographics and preferences.
- **Special Events:** Choose music for cake cutting, bouquet toss, garter toss, or any other planned activities. Keep it light and playful!

Pro Tips:

- **Backup Plan:** Discuss a backup plan in case of technical difficulties or unforeseen circumstances.
- **MC Duties:** Decide if you want the DJ to handle MC duties like introductions, announcements, and toasts.
- **Clear Communication:** Communicate your expectations clearly throughout the planning process and on the wedding day.
- **Relax & Enjoy!** Trust your DJ to create a fun and memorable atmosphere for your wedding. Let loose and dance the night away!
