**Testimonials from lives that have been changed**

"This has been an exceptionally difficult year for me dealing with exhaustion, burnout, and feeling stuck. The Growth Summit was the perfect opportunity to be reinvigorated and reconnect with my why. While the "big name" speakers were great, what I enjoyed most was hearing the stories and journeys of those close to home. This impromptu panel provided deep insight and connection to the community, allowing their bold faith to not only guide their lives and businesses, but be the forefront of every step. Faith did not feel like a topic or even a building block but was an evident overflow and a deep essence lived out loud. I had recently felt inspired at a different local event to get more involved in the community, but now I feel passionate about it. "

- Krista Harding

"I absolutely love this event. Second year I have attended and look forward to many more. The variety of speakers, from different paths of life and locations is refreshing, and the overall messages have been impactful. "

- Kyle Clevenger

"That was the jolt of energy and inspiration that I have needed for a while now! Thank you for bringing together such a caring and motivating array of individuals with unique stories to share. I found something to connect with in every speaker"

"It was a blessing to see and hear from the speakers both locally and those who were brought in from other areas. I felt blessed to hear from each person's personal recovery journey from experience of loss and unfortunate situations. Thanks a bunch for authenticity. "
