Interior Electrical Functions	2 / 2 (100%)
Horn function	Function correct
Interior lighting function	Function correct
Power lock function	Function correct
Power window function	Function correct
Power seat function	Function correct
Power Doors / lift gate function	Function correct
Air conditioning below 60*	Yes
Heater above 90*	Yes
Climate controls function	Function correct
Radio / display screen function	Function correct
Speakers performing correctly	Function correct
GPS function	Function correct
Satellite radio function	Function correct
12V power supply function	Function correct
Wireless charging function	N/A
Cooled seat function	Function correct
Heated seat function	Function correct
Remote entry function	Function correct

#### ADDITIONAL NOTES

Vehicle interior electrical functionality is correct across the board, no in operatable function

Interior Condition	
Seat belt function	Function correct
Front seat condition	Normal wear
Rear seat condition	Normal wear
Carpeting condition	Normal wear
Headliner condition	Normal wear
Door panel condition	Normal wear
Dashboard condition	Normal wear
Headliner condition	Normal wear
Center console condition	Normal wear
Glove compartment condition	Normal wear
Sun visor condition	Normal wear
Trunk / Cargo area condition	Normal wear
Trim pieces condition	Normal wear

**ADDITIONAL NOTES**

Normal wear to the interior as expected for the age and mileage on the vehicle. No water damage to the carpet or carpet installation. No rust on the bottom side of the dash. No evidence of flood damage present. No evidence of the vehicle being smoked inside. no severely damaged or missing panels. See all interior photos for evidence of current condition.

### Spare tire and equipment

Spare and tools present

**Battery / charging system**

**Battery date** No date sticker

---

**Standing voltage** 12.7

---

**Loaded voltage** 13.41

Battery is accepting the charge from the alternator and the alternator charge output is correct

Photo 138

---

**Engine Testing / Condition**

2 / 2 (100%)

**Internal engine inspection w/ borescope camera**

Engine clean internally, no gunk or sludge presents. Proper signs of maintenance present. Block test passed, no internal combustion leak out. Coolant mixture correct and cooling system functionality is healthy. All external engine accessories in good working. No leaks or seepage from anywhere on the engine. External drive belts in decent condition. Currently no concern in mechanical issues present in relation to the engine or related accessories.

## Suspension condition

### Front shocks / struts

Healthy

Normal fatigue notice to the suspension components. All of the suspension components seem to be original. None of the suspension components are blown out and due form the replacement. The No excessive surface rust on the exposed metal. No abnormal noise or feedback from the suspension while out on the road. All of the rubber in relation to the mounts, joints and bushings has decent texture.

## Computer diagnostic scan

### Engine control module

Healthy

All of the main control modules on the vehicle were free of any live/active diagnostic fault codes. All live feed diagnostic test testing was successfully passed. All live feed emission testing was successfully passed. At the time of the inspection there were no active warning lights present.

## Vehicle road test

### Vehicle road test comments / concerns

Vehicle functionality is correct out on the road across the board, no major/concern concerning drive abnormalities or issues present. Normal drive characteristics present as expected for the age and mileage on this specific vehicle.

Very subtle pulse noticed in the brakes when braking from high speeds

---

**Value of vehicle / Diminished value due to repairs or current damage**

No diminished value due to no structural damage presence or any structural damage repair work done

---
