

Extreme North Thailand

We have selected what the Northern provinces have interesting to offer, reflecting their culture, their inhabitants and ethnic minorities, their history, their nature and unique landscapes

Most of the sites visited in this program do not make part of 'mass tourism' itineraries, because it is either difficult to access them or because these 'tourists' don't find interest in spending time there. You will therefore discover them with full quietness and will enjoy each moment at each place

Downtown Chiang mai, its market and golden temples; Chiang Rai, the Golden Triangle; the superb dominion of Doi Tung; the unavoidable White Temple or the tea fields of Mae Salong... But also at Mae Hong Son the Padaung women and other ethnics. The scenic roads and a nature merely gorgeous do compose the essential of this program

You will discover regions not well known by Westerners, bucolic roads and superb landscapes. You will overnight in charming hotels, provided with comfort and good facilities. Finally, you will travel through the whole North of the country with a comfortable vehicle, a professional driver and a quality guide
