

Touch Bangkok among Heritage ruins , flora & wild fauna and beaches

Diversity in this original and comfortable program, ideal for couples, groups of friends or families with kids... We start making you discover the essential of emblematic places of Bangkok. Then you discover the most outstanding ruins of the ancient city of Ayutthaya (classified as world heritage by UNESCO), and the small town of Lopburi, invaded by monkeys

We will then go eastward, where you will halt in the very beautiful Khao Yai National Park, which still shelters rich flora and wild fauna. You will carry on visiting the Isan region and its exceptional Khmer sanctuaries

Finally, you will end this journey in a boutique hotel located on Rayong beach. This provincial city mainly attracts local tourists, but some savvy westerners use to spend time here for the quality of water and to avoid the overcrowded beaches of Southeast Thailand

You will accommodate in very good 4 star hotels, either classical, boutique style or original ones, but all well located and provided with very good facilities

Day 1 Bangkok
