

NEWS LETTER

PROJECT INTOMBI'S JOURNEY OF EMPOWERMENT.

ISSUE 3 | 29/04/2024

In March, Project Intombi continued the journey to help 2500 girls in 2024. Our mission is to give hope and menstrual dignity. We are providing for their menstrual needs and working to help them grow.

We chose Esperanza Primary because we wanted to understand their challenges. We talked about girls' health and helped them learn. These talks were safe places to ask questions and learn new things.

We didn't just give education. We gave sixty-five grade seven girls a reusable pad bucket. These pads are more than just cloth. They show care for the earth and help the girls feel good. They are not just for periods; they show that we care.

But the best part of what we did is hard to see. We helped the girls feel strong and able. We made it okay for them to talk about their bodies. We want them to know they can do great things.

Our help goes far beyond just one school. It shows that when people work together, they can make big changes. Each girl we helped is a sign of hope. It shows how much good can come from helping just one person.

We are happy for what we did, but we know there is more to do. We want to ask for your help. If you care about equality and want to help, there are many ways you can. Your help is not just a small thing. It can make a big change and give hope to girls.

Let's be glad for what we did, but let's not stop. The road to equality is long, but we can get there if we work together. Each small step we take gets us closer to a world where every girl can do great things.
