## PROJECT INTOMBI'S JOURNEY OF EMPOWERMENT.

ISSUE 2 | 08/03/2024

Celebrating Impact:

Empowering 270 Girls at Project Intombi in February ★

Dear LinkedIn Community,

I'm excited to share the incredible progress we've made at Project Intombi in February 2024, where we've reached and empowered 270 girls with essential menstrual health education and support. This month, our focus was on the grade 7 girls at Nooitgedaght Primary and Musenga Primary, empowering them with the knowledge and tools they need to stay in school confidently.

Making a Difference:

Our efforts are rooted in the understanding that access to menstrual hygiene products and education is crucial for girls' education. South African studies highlight the impact of menstruation on school attendance. Shockingly, 22.4% of surveyed girls had missed school because of menstruation. With this knowledge, we're more committed than ever to ensuring that no girl's education is hindered by her menstrual cycle.

Our Target: 2500 Girls for the Year:

With each passing month, we're making significant strides toward our goal of empowering 2,500 girls by the end of this year. Every girl reached is a step closer to a brighter, more equitable future for all. Through our collective efforts, we're breaking down barriers, promoting dignity, and fostering empowerment among young girls across our communities.

Join Us in Making a Difference:

As we continue our journey, I invite you to join us in our mission to empower girls with dignified menstrual health education and support. Whether it's through donations, volunteering, or simply spreading the word, your support can make a real difference in the lives of young girls who deserve every opportunity to thrive.

Together, let's create a world where every girl can stay in school confidently, pursue her dreams, and contribute to building a brighter future for herself and her community. Thank you for your unwavering support.

Warm regards,

*Cornelia Robbertse*
