Resident Notice

November 05, 2026

NOTICE TO RESIDENTS
Construction work near your home

Dear Resident,

Peel Region would like to inform you of upcoming construction activities at the former North Sheridan Landfill Site (1875 North Sheridan Way) that are anticipated to begin on or about November 9th, 2026, and will continue until completion on or about May 15th, 2027.

This work includes the construction of a new snow storage facility, including associated stormwater management features, grading, paving, landscaping restoration, and supporting site infrastructure. No structures are being constructed as part of these works. These works support Peel Region's winter maintenance operations by providing capacity to store and manage snow collected during significant snow events, while incorporating stormwater management measures to protect the surrounding environment.

During construction, residents may notice construction equipment, contractor vehicles, excavation activities, and increased truck traffic within the project area. Every effort will be made to minimize disruptions and complete the work in a safe and efficient manner.

Construction activities are expected to occur between **7:00 a.m. and 7:00 p.m., Monday through Saturday**, unless otherwise required. We will proactively manage any noise and heavy equipment use and keep measures in place to help protect the safety of works, residents and the travelling public.

For your safety, please stay clear of the construction area and obey all posted signs and directions.

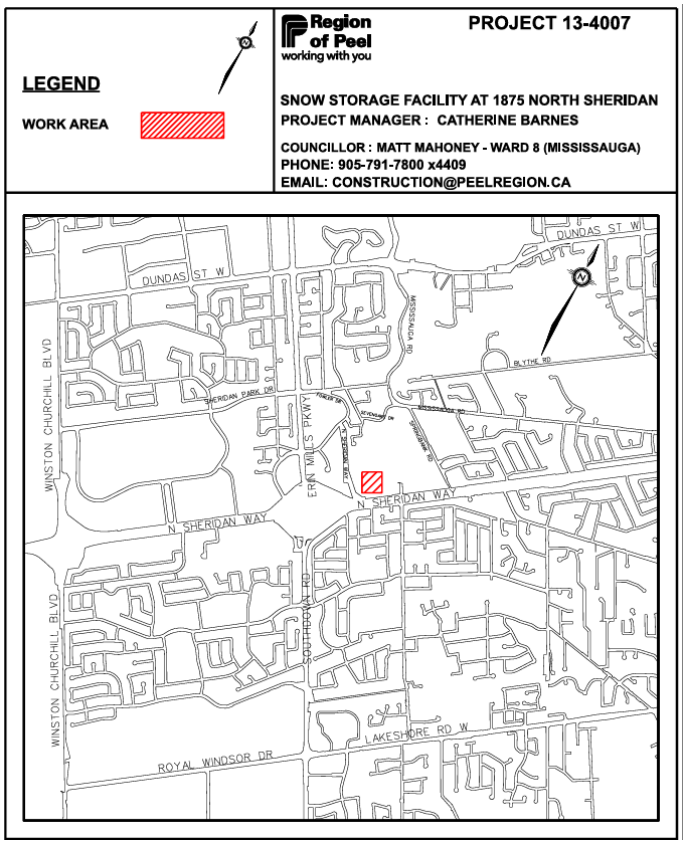

Region staff and the contractor will be available throughout construction to address any questions or concerns. Should you require additional information, please contact Peel Region at **905-791-7800** or **catherine.barnes@peelregion.ca**.

Thank you for your understanding while this important work is underway.

Sincerely,

Catherine Barnes
Project Manager, Roads Design and Construction
Transportation Division
Cc: Matt Mahoney, Councillor, Ward 8, City of Mississauga
Kelly Sousa-Dias, Acting - Director, Waste Management, Region of Peel

Al Dickens, Supervisor, Compliance and Landfill Monitoring and Maintenance, Waste Management, Region of Peel
