

PROJECT 19-2300 D2

May 20, 2021

## ADVANCE NOTICE OF SANITARY SEWER CONSTRUCTION IN YOUR NEIGHBORHOOD

The Region of Peel will be working in your neighborhood to install new sanitary sewer pipes and maintenance holes. (See attached map.) The work is a part of the Region's commitment to maintain and improve wastewater services which includes installing new pipes and a maintenance hole at the intersection of Fifth Line West and Glen Erin/5<sup>th</sup> Line Trail. This project will improve the flow of wastewater and reduce the risk of blockages that cause sewer backups.

### Important traffic safety information

**A full road closure of Fifth Line West is required due to the depth and nature of the sanitary sewer construction work and significant existing utilities.** Motorists will be reminded to abide by traffic /construction signs posted in local areas to ensure the safety of all road users, pedestrians, and cyclists. Access for local traffic will be maintained, including access to all driveways and the multiuse trail. One of the sidewalks on Fifth Line West will be kept open for pedestrian use. Signage will share information about sidewalk use.

### Construction schedule

Construction is expected to start in middle of July and be completed mid-autumn. Once the contractor is selected and schedules are confirmed, we will deliver more detailed information to your home.

### Minimizing construction impacts to you

- There will be road closure at the intersection of Fifth Line West and Glen Erin/5<sup>th</sup> Line Trail with detour routes posted.
- Regular working hours will be between 7 a.m. and 7 p.m.
- Pedestrian access to the trail will be maintained.
- Driveway access will be provided at all the times.
