

Jan. 08, 2024

**SUBJECT: WO #651153 - Sawmill Valley Main Feeder Cable (L6262 to S140075)**

Dear Customer:

Alectra Utilities, your local Hydro Distribution company is committed to providing quality service and a reliable supply of electricity to all our customers. In keeping with this commitment, Alectra Utilities will be undertaking an underground (U/G) re-build project along:

- **BURNHAMTHORPE RD. WEST**
- **SAWMILL VALLEY DR.**
- **FOLKWAY DR.**
- **WHEELWRIGHT CRES.**

*Please refer to the key map attached to the back of this letter.* This project requires Alectra Utilities to replace / install U/G ducts, U/G cables to accommodate this work.

Alectra Utilities obtains the necessary approvals and permits from the City of Mississauga prior to starting the project.

Alectra crews will be working primarily on the streets mentioned above.

This project will require excavations along Wheelwright Cres, Folkway Dr, Sawmill Valley and Burnhamthorpe Rd. to install new U/G ducts and U/G electrical distribution equipment, including high voltage cables.

Additionally, construction vehicles and equipment will be apparent, and while we apologize for any inconvenience *noise, dust, and crew presence* may cause, we want to reassure the community that Alectra and our contractors adhere to best construction practices ensuring a safe work zone. Majority of construction will occur during the weekday typically between the hours of 7am to 4pm.

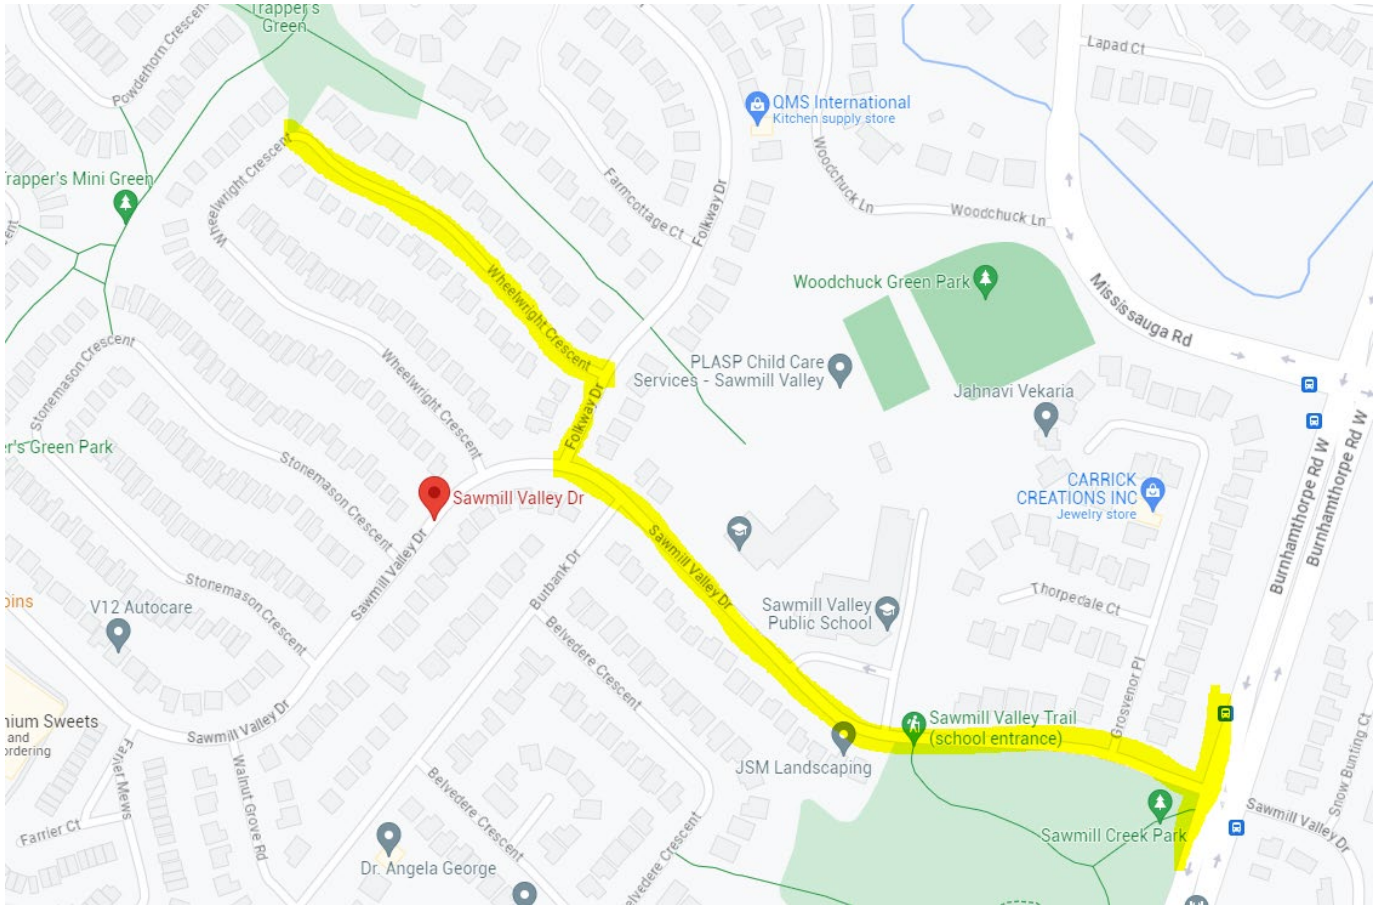

Furthermore, the side walks along the above mentions streets may be impacted and every effort to coordinate safe vehicular and pedestrian passage during construction will be made.

Scheduled power interruptions may be required to safely complete our work and every attempt will be made to notify you in advance. **If your power will be affected, you will receive notifications by phone or notice on your front door, therefore please ensure that your primary contact phone number attached to your Alectra Utilities account is current.**

Construction is scheduled to begin May 2024 and completion is expected in December 2024. **Restoration will be performed to reinstate affected surfaces, such as roads, sidewalks and driveways, etc. to original or better condition.**

Thank you in advance for your understanding and cooperation.

Should you have any questions or concerns, please do not hesitate to contact Fiona Giggie at 905-798-3168 or [Fiona.Giggie@alectrautilities.com](mailto:Fiona.Giggie@alectrautilities.com).

Sincerely,

Alectra Utilities Corporation
