Project 20-1310 I4

PROJECT UPDATE

Watermain Replacement and Improvement Pitch Pine Crescent and Peachtree Court

The Region of Peel was planning to replace the watermain on your street this year. Due to delays with obtaining locates of underground utilities and project approvals, the construction has been postponed.

Construction timelines

We are planning to begin this work in **early 2023**.

Important note

This upcoming construction will take place in the municipal right-of-way, the land owned by your city located between the street and your water service box (small, round metal valve in either your driveway or lawn). **This work may impact the bottom of your driveway and the area around the sidewalk.** We therefore **recommend delaying any driveway paving or major landscaping** until after the Region of Peel has completed all construction work.

Keeping you informed

We will deliver more detailed information to your home closer to the proposed construction date.
