

## City Park Electrical Upgrade

The City is taking bids to install new electrical panels at City Park that are used for the Oelwein Celebration. The City would request a bid for the following:

- 400 amp 120/240VAC service distribution panel (1)
- 150 Amp 120/240VAC service distribution panels (3)
- At each panel
  - (6) 20 Amp 120 VAC outlets
  - (3) 30 amp 240 VAC outlets
  - (3) 50 Amp 240 VAC outlets
- All power distribution panels will be trenched to locations
- Treated wood panels will be fabricated and installed for electrical service distribution panels
  - 6x6 treated posts
  - 1x6 treated boards
