

## **Catapult Rides Bio - Short (128 Words)**

Catapult Rides is an Orlando-based indie rock band delivering “retrofied originals” that fuse ’90s/’00s nostalgia with the restless energy of modern alternative. Their songs pair thoughtful lyrics and earworm hooks with harmonies described by friends and family as “somewhat pleasing” and “better than expected.” Actual critics (surprisingly less harsh than family) have called their sound “intellectual and lyrically dense, with a straight delivery over unexpected rhythms.” With singles like Figure It Out and Love GPT out now — and an EP on the way in late 2025 — Catapult Rides brings the kind of live energy that makes you ask, “Sticker or hoodie?” (Answer: both).
