

# Case Study: Brookhill Estate

**CLIENT:** HYDE HOUSING LIMITED

**PROJECT:** BROOKHILL ESTATE REGENERATION

**COUNCIL:** ROYAL BOROUGH OF GREENWICH

Our Planning Director is providing the project lead on the regeneration of Brookhill Estate to enable delivery of a 254 unit mixed-tenure development of c. 250 units.

The work has closely followed the Mayor's 'Homes for Londoners' guidance on Estate Regeneration, which has necessitated a residents' ballot to enable project progress. Further to significant engagement with local stakeholders and regular Steering Group meetings, the ballot process managed to secure a very high turnout (87%) of which 86% voted in support of the proposed regeneration.

Our Planning Director has subsequently facilitated numerous stakeholder meetings and has provided the interface with the GLA, local planners and decision-makers during the pre-application and post-submission processes.
