I retired from Washington Closure Hanford in 2011 after more than 35 years of service on the Hanford site. I worked in construction during the building of FFTF and Washington Public Power Supply System's nuclear power plants. I then moved into Reactor Operations at 100N, later Engineering at B Plant and then spent the next 20 years as a Sr. Buyer and Contract Manager for three different Department of Energy prime contractors on the Hanford site.

I grew up in the Tri-Cities but moved to California in 1964. I returned to the Tri-Cities with my wife and daughter in 1977. My wife and I moved into our home at the Heights in July of 2013.

My hobbies include traveling, attending car shows and volunteering in the community. I am currently active in the Kennewick school systems - TEAM READ - Program. We are always looking for volunteers who want to spend a minimum of a half an hour twice each week helping 1st, 2nd and 3rd graders learn to read.

I am currently serving on two of your HOA committees – 1) Board of Directors, Treasurer
2) Architectural Committee

If there are any questions or issues that you would like to have addressed by either of these committees, send an email to me at the above address, give me a call or stop me while Tucker (one of several Labradoodles who live in the Heights) is taking me for a walk through our community.
