

# Safety Bumper Technical Data Sheet

Safety bumpers act as a personal crumple zone for people, machines and fixtures by absorbing hard impacts and preventing injuries and damages.

## Key benefits

- Warning and protection against hazards
- For use indoor and outdoor
- Highly effective warning capacity
- Simple installation
- Robust and durable
- Individual lengths up to 50m
- Reduces cost - due to damages
- Minimises staff absences

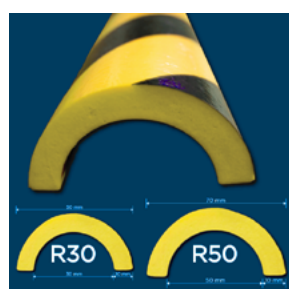

## Physical and chemical properties

<b>Profile body</b>	Recyclable polyurethane foam		
<b>Surface</b>	Polyurethane foam coloured by reverse printing and fixed in place by foaming so that no paint appears on the outside.		
<b>Adhesive</b>	The profile body is affixed using a light and ageing-resistant, high-performance adhesive which has got an adhesion power of 21 N / 25 mm.		
<b>Temperature resistance</b>	From -40° C to 100° C		
<b>Fire classification</b>	According to DIN EN 13501-1 / class E		
<b>Colours</b>	Bright yellow and black hatching as per ASR A1.3.		
<b>Standard lengths</b>	1m, 5m (shrunk in foil) and up to 50m (in cardboard)		
<b>Installation</b>	Simply adhere to clean, grease-free surfaces		
<b>Weight</b>	1m - 0,40 kg	5m - 1,83 kg	50m - 20 kg
<b>Shore hardness</b>	Shore A = 40		

We offer flat profiles for surface protection, 90° corner profiles for angles and round profiles for pipe protection.
