## Saturday September 20th 6-8 pm

Our community gathers monthly to explore intimacy with self, intimacy with others and intimacy with the divine. This is an embodied experience that includes somatic explorations, touch and consent. This month we'll focus on Surrender...presence to what is happening...releasing the armored resistance that has built up and inhibited your ability to flow. When your definitions of who you are and who you aren't harden, life becomes very limited. The only way to experience true freedom is through engaging innocently and authentically with each unfolding experience. If you have any questions about your participation, please feel free to reach out directly to Jodi to have a short chat {[Jodi@surrenderinmotion.com](mailto:Jodi@surrenderinmotion.com)}
