**Visioning ...
Treasure Mapping ...
Tools
for navigating in the New Earth**

Our New Earth is counting on You! She needs your unique gift now!

We are entering a new time ... a new Earth and you have a huge piece to add to the puzzle creating the miracles ahead. You are the treasure and this is a day to map your endless possibilities into reality. Come plan an amazing adventure for yourself and see how it is possible.

We will explore life in this new Earth and the joy of the adventures along the way. Let me be your guide.

Guide: Jamie Griffin has spent her life helping people bring their dreams to reality. She has helped build a private music label ... brought several businesses from struggling to thriving ... helped clear and organize homes ... and held a friend's hand while she planted her first ever garden. Through a Treasure Map Jamie even created her dream of being in community. The community co-created living in a castle. Now "her dream" is supporting our adventure in our New Earth.
