Tachyon harmonizes imbalanced energy and promotes well-being.

Tachyon is a field of consciousness made up of subatomic particles that travel faster than light. Tachyon's job is to balance and harmonize imbalanced energies by working directly with your DNA to repair and upgrade your body's template as well as neutralize harmful EMFs. Tachyon also amplifies your desires and intentions to manifest the life you want. This energy field is totally non-specific and encompasses all energies and frequencies in itself in all dimensions of your being. Thus, it has a profound effect on your human body and its energy fields. The Tachyon field culminates almost effortlessly into higher light and knowledge.
