Dear Madam:

Please be advised that we are a unionized Company and have to employ all our journeymen and apprentices through the local union. However, if a lady plumbing apprentice was available and we had an opening, we would hire same through the union.

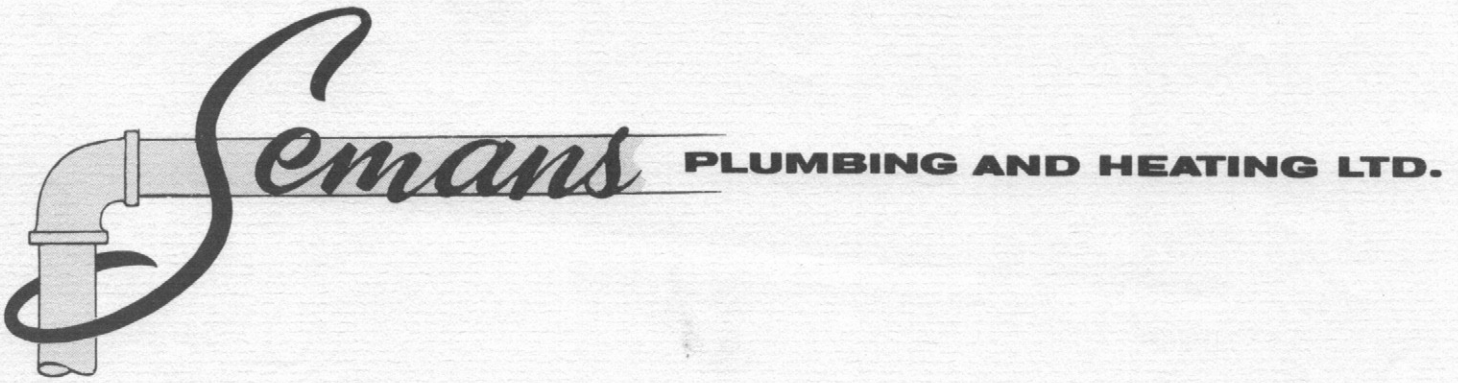

Trusting that this is the information you are looking for, we remain,

Yours truly,

TO WHOM IT MAY CONCERN.

I have interviewed Mrs. Skonorowski regarding her wishes to become a plumber.

I have informed her that should she take an apprenticeship in plumbing and pass such tests that are required by apprenticeship training, our firm would employ her as a service plumber, providing she can perform the work required by our firm and that at that time we have a vacancy on our staff which we would want to fill.

Yours truly,

THE STANDARD PLUMBING & HEATING CO. LTD.
