TO WHOM IT MAY CONCERN:

or

to Mr. Mike McGuire

Mrs. Linda Skomorowski has asked me to certify my approval of her intention to register with this College as a plumbing pre-employment student.

She has my consent with the proviso that the College cannot extend any special privileges to her on the grounds that she is a female student. She will have to conform to all regulations and perform the same jobs and assignments as all other students. It goes without saying that the clothing should be such as to cause the least amount of disturbance among her classmates.

Since in the past plumbing has been the exclusive domain of men, I am not certain whether she will find employment in the industry upon completion of her course and on these grounds have voiced some reluctance. However, since it is not I who sponsors her place on our course, this decision is not for me to make. As far as I am concerned, I have no further objection to make and thus agree to admit her into the Plumbing course whenever a place is available.

Sincerely,

A handwritten signature in cursive script that reads "P. Elvers".

P. Elvers,  
Head,  
Construction Department.
