SS Ultra and Rack

NEW

Introducing our new Stainless Steel Ultra-Lift and racking system, our modular racking system can be added to any space in your Funeral Home. With a 300kg lifting capacity and robust 3-tier modular racking system that can be added to at any time this equipment will easily look after your needs in a mortuary environment.

Multilevel XL300 Hybrid

This innovative trolley is equipped with a cutting-edge Flexible Wheel System that adapts effortlessly to your needs, ensuring smooth and secure movement in any environment. The directional-lock feature allows for precise control, while the swivel and braked options provide enhanced manoeuvrability and stability, making navigation through tight spaces and around obstacles a breeze.

The Auden Hybrid Trolley also boasts a multi-height capability, allowing users to adjust the trolley to an optimal ergonomic position, ensuring comfort and reducing strain during use. This is particularly beneficial for tasks that require prolonged handling, as it minimizes the risk of injury and fatigue for the operator.

Additionally, the easy-out wheels streamline the loading and unloading process, providing a hassle-free experience that saves time and effort. Built for heavy-duty use, this robust trolley can support loads of up to 318kg making it ideal for a wide range of tasks, from hospital and mortuary operations to other demanding environments where the transportation of heavy bodies is required.

Constructed with durability and reliability in mind, the Auden Hybrid Trolley is the perfect choice for professionals seeking a dependable and efficient solution for the transportation of bariatric individuals. Its combination of advanced features and user-friendly design ensures that it meets the highest standards of performance and safety, providing peace of mind and ease of use in even the most challenging situations.

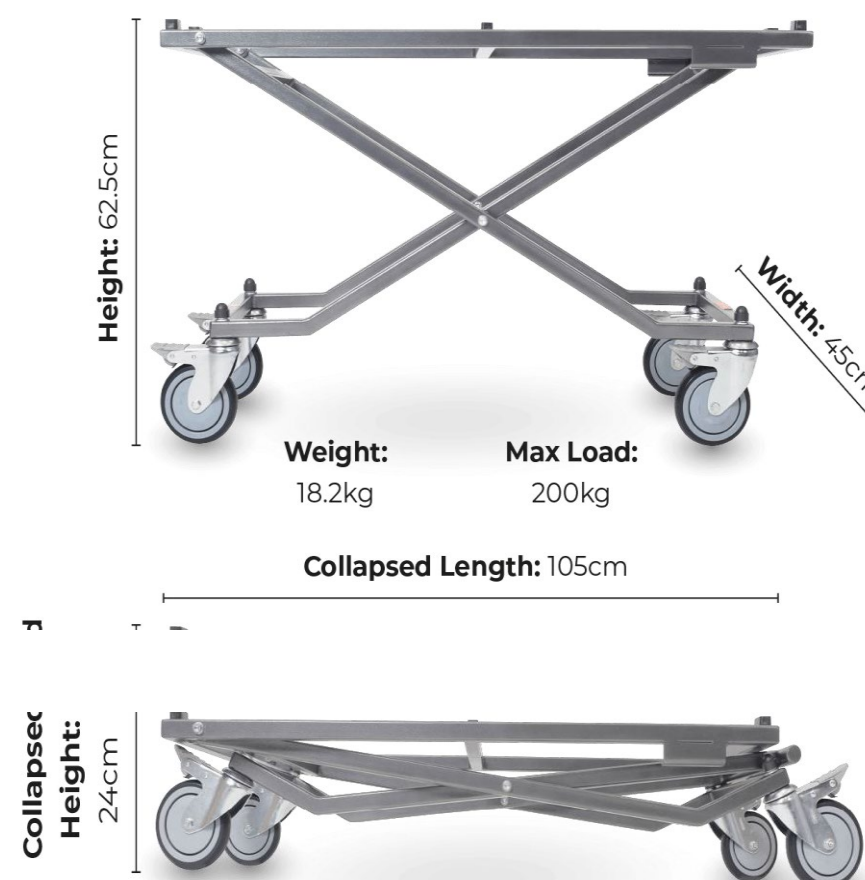

Ultra Lift Standard & Long Top

The new Ultra Lift has been designed for use where space is limited and has been meticulously engineered to thrive in limited spaces. It has been borne out of a culmination of invaluable customer feedback and a commitment to continuous improvement. This powerful lifter, with a remarkable weight capacity of up to 300KG, redefines versatility with its compact design, making it the perfect companion in various situations. The Ultra Lift is battery powered and mains chargeable and is controlled from a mounted foot controller. The product can reach a 3-tier mortuary fridge and is available with a standard length top or a longer top.

X-Trolley Systems

Taking the Coffin Trolley to New Heights

Reduced Storage Space

The X Trolley Ultimate System includes 6 X Trolleys and our modular Rack, all designed to be compact but strong.

Stretchers

Manufactured with the user in mind all our one-man stretchers have multilevel loading and unloading capabilities.

Our “Piggyback” solutions allow operators to transfer more than one deceased at a time with our revolutionary system with a detachable carry stretcher which sits in a dedicated housing on top of the Multilevel unit.

A range of customisations can be provided to suit the individual needs of users from height and width of the units to a variety of wheel configurations.

First call and Stair Stretchers

The workhorse of any Funeral Home, our folding carry stretcher comes with a standard wheel configuration or our new stair wheel configuration for easy handling in challenging situations, all our stretcher also has the option of the “Easy out” wheel or rubber stopper.

Church Trucks

Aluminium Multi-Height

A Funeral Home and Funeral necessity, our Church Trucks come in 2 types, a Multilevel Aluminium version with a 318kg capacity and our Polished Stainless Steel single height unit with a 250kg capacity.
