

THE CHRISTMAS STORY

(THE REAL ONE YOU HAVEN'T BEEN TAUGHT)

How do you prepare for Christmas? Our world has become more secular and more religiously pluralistic than ever before. Doesn't this make it more urgent for us to know the Christmas story and be able to tell it and share it?

But do we know this story? Yes we've been taught it for generations. But what exactly have we been taught? Is the version of the story we've been told actually distorted to fit into what popular culture shaped by imperial power over the centuries changed it to be? How may we hear and inwardly digest the song of the angels, the witness of the shepherds, the wisdom of the Magi, and the front-line experience of Mary and Joseph in a way that makes the Christmas story come alive for us afresh with integrity?

Join us for some great discussion **Wednesday, December 10, 7:30pm**, in person and online, as we review the Christmas story we find in the bible and meditate on it from a new and more originating perspective.
