Affiliate Announcement

Bottom Gun Coffee Company

10.05.2020

TheSubVet.com has become an Affiliate Partner with Bottom Gun Coffee Company.

TheSubVet.com has become an Affiliate Partner with **(BGCC) Bottom Gun Coffee Company.**

We are excited to announce this new venture in marketing fine roasted Coffee for all Mariners of the Sea and their families. **BGCC** is focused on high standards and is aligned with **TSV** values as well which makes this a great relationship for both Ventures.

BottomGunCoffeeCompany.com

Eric Ryle owner Of **TSV** said “We will be the marketing arm for **BGCC** in which we hope to grow the Coffee Subscriber Membership and Customer base. It's really a great opportunity for our specific community to have a fine roasted Coffee Selection for the Navy and Coast Guard and of course the Warriors of the Deep.”

Coffee has always played a special and important role for those who chose to conquer the sea, and **BGCC** wants to play that role with its various fine aromas and flavors to choose from for your days and weeks at sea or great seafaring memories of the past.

About Bottom Gun Coffee Company

Bottom Gun Coffee Company was born from the love of coffee while serving in the **Submarine Force** for the great U-S of A. I learned there was a great deal of rivalry between the men on board, and great respect as well. With that shared, one common thread ran through the crew, long hours! And of course, coffee ran like water from the urns. Fresh coffee was good on a boat, but it wasn't always fresh, or some “new” guy made it so bitter it was evil. Bottom Gun Coffee Coffee Company will ensure that the “new pot” freshness experience will be yours with every brew we offer. Our coffee is roasted by master roasters and our beans are direct from the growers. So when you start out with the quality you end with a fine brew!

Sailors and Seafarers who want to experience BGCC for them self can order their Coffee by a monthly subscription or by the pound now by applying a special Discount Code of “TSV” at checkout.
