

Activity Day Memories

Family Dinner

Each month, local churches, businesses or community members prepare delicious meals for our clients and volunteers. This enables us to spend quality time together building relationships. In addition, community partners join us each month to share about their services with our clients, enabling them to make helpful connections.

trauma!”

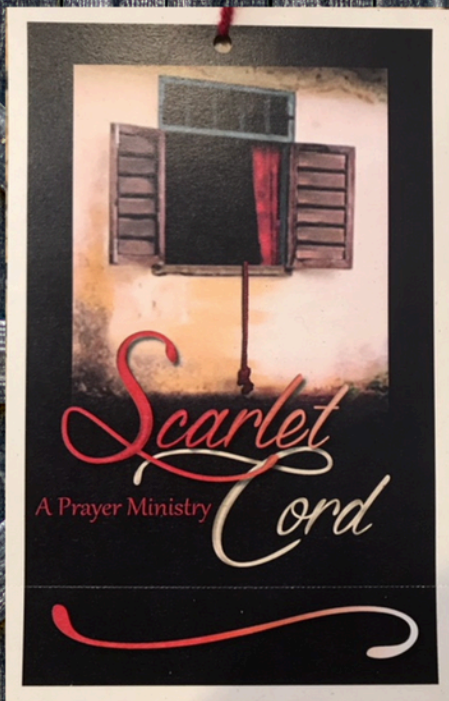

-TC

Rooted In Healing enables Damascus Road Project to partner with experts to provide trauma informed counseling to clients who have been victimized. Often, lack of insurance or available funds is a barrier to getting the therapeutic healing our clients really need. By sponsoring Rooted In Healing, you are a part of the restoration process for the amazing women we serve.

Prayer Changes Everything!

Damascus Road Project Prayer Ministry

At the end of a recent visit with an incarcerated client, we prayed for her. She teared up and shared that she had no one to pray for her. We shared with her that she has prayer warriors through this ministry that pray for her, and she sobbed. It meant so much to her to know that complete strangers are praying just for her!

Pastor Chris & Holly Elflein

Pastor Chris Elflein is an ordained minister with the Assemblies of God. He earned his degree in Church Ministry from Southwestern Assemblies of God University in 2007, and serves as lead pastor of Hillside Community Church in Neillsville, WI.

Chris met his wife Holly during his first year in ministry and together they have been teaching and shepherding people for over fifteen years. They are the proud parents of two sons. As a pastor, Chris recognizes that we are living in a fallen world.

We are all impacted by sin: by our own sin, by those who sin against us, and by an environment that has been corrupted by it. It was into that world that Jesus Christ came as a Light shining in the darkness. Only in Christ can we hope to be delivered from the destruction that sin brings. People can experience new life by God's grace through faith in Him.
