Why Pioneer?

Pioneer is a family owned independent distributor of Maintenance, Repair & Overhaul products.

We have been supporting and supplying the Food, Beverage & Bottling Sectors across every corner of the U.K. for the last 25 years.

We understand that time is money in such a demanding sector and that products are critical to the production process, so only the best of products and brands are acceptable.

Pioneer has the experience, the suppliers and the product range to support small, medium and large customers across this industry sector and we always make sure to offer a value for money service, 24-7 / 365 days of the year.

We tailor our support to the requirements of our customers and we not only offer products at competitive pricing but back-up support via manufacturers engineers and technical staff. So if you have an application issue you need resolved, such as continued Bearing failure or Modular Belting upgrade options, then Pioneer can support you with application and product reviews both in-house and supported by manufacturers.

The Team at Pioneer thanks you for the opportunity to support your business.
