Abstract. A meme coin for fun; it is just for fun and a project to promote safe drinking and meme token/coin legitimacy (no rug.) At its heart Zebra Striping is like a game. Designed to hold participants accountable for a night/s debauchery of alcohol shenanigans.

What is Zebra Striping – by definition; according to website Vinepair.com “Zebra striping — the coined term for alternating alcoholic and non-alcoholic drinks within a session.” <https://vinepair.com/articles/zebra-striping-explained/>

Basically, zebra striping is when you extend your night and your longevity or at least your livers, by rotating alcoholic beverages with beverages that hydrate; namely H2O (water.)

The mission of Zebrastriping.xyz is to promote safe drinking and the accountability token of HYDR8 (ticker symbol.) Participants will agree to exchange 100k of HYDR8 token/coin (HC) every time a night of drinking alcohol is done without zebra striping. Or hey maybe you don't want to drink alcohol at all, but you just want to support the project and exchange HYDR8.

Any Supporter/s of Zebra Striping can form HYDR8 Jar Accountability Group/s via Zebra Striping Social Contracts. Future development plans for website API to allow for group tracking and utilization that can be viewed in private or public domains.

Zebra Striping Social Contract - all participants agree to send 100k HC to a pre-determined “burn wallet” anytime they consume alcohol without Zebra Striping. The Burn Wallet will send weekly tallies to be incinerated the first open Monday in the fullest amounts possible at the soonest time allotted. The Burn wallet will be posted on zebrastriping.xyz along with Founding Stakeholders group tallies after they are received and should be sent by group members at their soonest. Non-Core Stakeholder group tallies may or may not be posted; depending on website development and supporter preference. IF PARTICIPANTS ARE FOUND BY DECIDED BODY OF FOUNDING STAKEHOLDERS GUILTY OF COLLUDING, CORRUPTION OR ATTEMPTS OF RUGGING OR CONSPIRING TOO RUNG; THEN THEY AGREE TO HAVE THEIR ACCOUNT/S FROZEN, BLOCKED, AND HC TO BE SEIZED BY ANY MEANS POSSIBLE. AND TO FINE OF EQUIVALENT SOL. THIS ONLY APPLIES TO WINNERS OF PARTICIPANT DROPS / GIVEAWAYS, APPOINTED STAKEHOLDERS, AND FOUNDING STAKEHOLDERS. Organic groups created by supporters are free to play

however they choose; moreover, the later mentioned Lucky Winners of free use HYDR8 still have free use privilege despite any prior or pending statement/s. Large gains executed by Supporters or Organic Groups will not be considered “rugging” just smart play.

HYDR8 Jar Accountability Group / HYDR8 Jar - a group who form a social contract to hold each other accountable for zebra striping. If a participant consumes alcohol without rotating in and consuming a full water beverage of at least 8 Oz. every other round of drinks, then they are flagged 100k of HYDR8 token/coin (HC) for not zebra striping. Every Monday the 100k HC/s tallies are sent to an agreed upon “burn wallet.” All participants agree to send 100k HC to pre-determined “burn wallet.” The Burn Wallet Admin or Agent will send weekly tallies to be incinerated every Monday in the fullest amounts possible at the soonest time allotted. After all members but one have “burnt” all their HYDR8, then the remaining member may freely exchange remaining HC. Up until a single member remains all HC must remain in group members Zebra Striping Social Contract Wallet/s. Group members reserve the right to independently incinerate 100k HC tallies ad hoc i.e. as their respective zebra striping infraction/s occur; however, there will have to be proof of burn, or use of embedded incinerator on zebrastriping.xyz or subdomain. Groups may choose a lesser amount than 100k HC. However, the default amount is 100k and all Core Stakeholders burn 100k HC per infraction.

EXTRA FUN - Members can write other members bios and use an AI like ChatGPT to generate caricatures for Bio picture of other members; this can be done by one member or more than one. The bios should help viewers understand the likelihood of successful zebra striping or not.

Token Breakdown:

1 billion HYDR8 Token Coin (HC) in total
800 million HC for exchange and Supporters
191 million HC reserved for promotions, giveaways, games etc...
6 million HC for scheduled burns (incinerations)
3 million HC for Developer

Promotions, Giveaways, and Games:

100 million divided between Core Stakeholder Pool.
Founding Stakeholders: will hold 10 million HC each following launch.
5 handpicked for valued trust by developer. After 4 years from launch; the next 5 core stakeholders will be Appointed Stakeholders - selected by interview process after initial application and then appointed by popular Founding Stakeholder vote.
All 10 Core Stakeholders must participate in a HYDR8 Jar Accountability Group (H-JAG.) The 5 Founding Stakeholders will be in one group and the 5 Appointed Stakeholders must form their own respective group, with exactly 5 total members per H-JAG. Each member of the Appointed Stakeholders must send 1 million HC to each member in their group. Leaving the Appointed Stakeholder with 6 million HC. The last Zebra Striper with HYDR8 left will have free use of their tallies.
