

Birth Chart

You can have your birth chart calculated for free on numerous websites. Follow the steps below to do so using www.astro.com.

You will need:

- your birth day, month and year;
- your birth location; and
- accurate birth time.

*An accurate birth time to within 3-4 minutes is important.

To calculate your birth chart:

- Go to www.astro.com.
- Click on Free Horoscopes.
- Choose Extended Chart Selection.
- Select For Guest Users (or sign up for free if you wish).
- Enter name, birthdate, birth time, country and town.
- Choose the following settings:
 - Sections: Round
 - Chart type: Natal chart wheel
 - Chart drawing style: Web default style
 - House system: Placidus
 - Zodiac: Topical, Geocentric
 - Display and calculation options, Aspects: draw no aspect lines
- Ignore all other settings and options for now.
- Choose the Click here to show the chart button.
- Voila! You have your basic birth chart. You can save this image for future reference.

*We recommend drawing no aspect lines for beginners as it can be overwhelming at first.
