Platet Rich Plasma (PRP) Therapy

Platelet-rich plasma (PRP) therapy uses injections of a concentration of a patient's own platelets to accelerate the healing of injured tendons, ligaments, muscles and joints. In this way, PRP injections use each individual patient's own healing system to improve musculoskeletal problems.

Radio Frequency Treatment

Radio Frequency Treatment also called radio frequency skin tightening, is a nonsurgical method of tightening your skin. The procedure involves using energy waves to heat the deep layer of your skin known as your dermis. RF Therapy has been used since 2001 to fight against sagging skin and signs of aging.
