

# TRAINING DOGS ONLINE

Where every dog should begin, in order to succeed!

## Welcome to TDO!

This program was created to help dog owners learn everything they need to create a happy, resilient and obedient dog.

Most clients assume that you need a professional dog trainer physically in your home in order to learn how to train your dog or puppy. What if we told you that you really don't, in fact, you will not only have more success training your own dog, but you will build an even better relationship with them than you ever thought possible.

We have combined all of our dog training secrets and jam packed them into Training Dogs Online. The course will take you through 8 units in the comfort of your own home, at your own pace with protocols and tutorials designed to help you train your dog with ease. There's no need to worry, we will be there with you every step of the way analyzing your video submissions, answering your questions and we even offer weekly Zoom calls in case you need a little extra guidance. The support you receive through the community we have created will help give you confidence, keep you on track and feel supported through your ups and downs.

1

### MOTIVATION

We believe in using our dog's daily rations of food as a motivator for training. A motivated dog is happier and easier to train. Treats come and go, but real motivation is forever!

2

### ENGAGEMENT

Teaching dogs the importance of focus, work ethic and how rewarding it is to remain engaged and listen.

3

### CLEAR COMMUNICATION

Using a consistent language we can mark behaviours we like and behaviours we dislike. This allows us the opportunity to "talk" to our dogs and have them understand.
