

M & F labradoodle pups

\$2000_{ono} Xmas Ready –

to go from Friday, December 13, 2024

1 boy and 5 girls – very cute!

(born October 18, 2024)

Whyalla Available to view weekdays after 2pm.
Victor Harbor or Elizabeth / Metro on weekends
by arrangement only!

At their vet check and vaccination 6/12/2024 all were well &
→ Miss Brown – 5.1kg long black wavy fluffy fur
→ Miss Black – 3.8kg tiny – was supplementary fed – wispy
long gold fur similar to a golden retriever look
→ Miss Orange – 5kg very labrador looking fur at this stage
→ Miss Blue – 5.7kg big chunky monkey short black
labrador looking fur at this stage
→ Miss Red – 4.8kg beautiful delicate face short black
labrador looking fur at this stage
→ Mr Pink – 5.5kg long black wavy fluffy fur

I can't predict what sort of coat they will eventually have as they
change as they develop and don't get adult coat until about 6
months old. However, based on their half siblings they are likely
to be fluffy labrador sized dogs. You can test for a definitive

answer <https://live.orivet.com/store/breed-list/labradoodle-?species=canine>

Vet checked, chipped, immunised and ready for their forever
homes from Friday. Lovely little dogs that need their forever
families. They are smart little cookies - so if you don't grab one
soon you will miss out on the joy of teaching your bundle of fluff
to sit, their name and all the cute puppy stuff because they are
already starting to learn such things and their temporary collar
colour name!

REGISTERED BREEDER ☒ **DACO NUMBER- DACO181594**

Puppies will come :

- ☒ With 1st vaccination
- ☒ Microchipped
- ☒ Vet checked
- ☒ Flea treated (under mum)
- ☒ Wormed
- ☒ fluffy toy with Mum/Puppy scent
- ☒ puppy information pack
- ☒ puppy collar
- ☒ Not desexed

The puppies sleep in my bedroom - effectively they are Night
crate trained and learning toilet training - and have been
exposed to other dogs, usual household goings on and travel.
They are very good travellers! (I'm a drive-in drive-out worker) *I
can deliver with arrangement to Victor Harbor, Adelaide,
Whyalla or in-between.*

Sadly, they must go (honestly, I would keep them if I could and be crazy
Labradoodle lady forever). Labradoodle 1st litter - Father is a purebred
Labrador who cost \$4000 from Waratahlabs and mother is a
labradoodle that cost \$2500 from Lewiston – more poodle than
lab. My Family owns, loves and spoils both parents and I can
send photos (or video) of both parents on request.

Please Contact 0403278967 (please if I don't answer - leave a message
or text as I cannot always answer the phone due to work commitments) for more
info **Ad on Gumtree** or Instagram peabrainpenny or facebook -
<https://www.facebook.com/profile.php?id=100063324663448>
or their own website with all sorts of information **Each individual
puppy profile, gallery and labradoodle information**
