Pups have varying coats so you can choose. So, if you are looking for a labradoodle or a less shedding smaller fluffy labrador look the LESS fluffy ones of this litter – are your guys!

→**Black and Brown collar boys - have labrador type fur.**

→**Yellow girl and Blue collar boy have longer fur similar to golden retrievers and will be labradoodle scruffy fluffy.**

→**Pink girl, Purple girl, Green boy have longer labradoodle fur and will be labradoodle scruffy fluffy.**

Miss Pink and Purple are tiny compared to others and expected to be small.

Vet checked, chipped, immunised and ready for their forever homes. They are smart little cookies - so if you don't grab one soon you will miss out on the joy of teaching your bundle of fluff to sit, their name and all the cute puppy stuff because they are already starting to learn such things and their temporary collar colour name!

The puppies sleep in my bedroom - effectively they are Night crate trained and learning toilet training and have been exposed usual household goings on and travel. They are very good travellers! (I'm a drive in drive out worker). *I can deliver with arrangement to Victor Harbor, Adelaide, Whyalla or in-between.*

Sadly, they must go (honestly I would keep them if I could and be crazy Labradoodle lady forever) as there is no room left for them to grow and sleep in my bedroom or travel in the crate in the car! I have a work away commitment in March. Must be gone

Labradoodle 1st litter - Father is a purebred Labrador who cost \$4000 from Waratahlabs and mother is a labradoodle that cost \$4500 from BoutiquePaws. My Family owns, loves and spoils both parents and I can send photos (or video) of both parents on request. Happy for you to visit and see them.
