RESTORING THE GIVERS OF CARE

WHY DONATE?

- Our research shows that 26% of massage therapists in the United States live in poverty.
- Fifty percent of massage therapists make under \$48,900.00 per year.
- The living wage in the United States has been steadily increasing since 2020, with single earners having to work twice as much to support themselves and any dependents.
- Massage Therapist income is variable, inconsistent, and often seasonal.
