MESSAGE STUDENT SCHOLARSHIP PROGRAM

BE THE CHANGE

OUR GOAL

USOLMT's goal is to raise \$5,000.00 annually for our new Massage Student Scholarship Program.

Five thousand dollars will cover the full cost of a massage program at any Community College, or about half the cost of a massage program at a private massage school.

Students must demonstrate financial need to receive the scholarship.

Benefit a potential massage therapist with your generous financial gift today.

STEPHANIE RODRIGUEZ

Founder & Executive Director

WHY DONATE?

- The cost of massage school is, at times, too expensive for students in need to bear.
- The field of massage therapy will gain one massage therapist per year who enjoys a debt-free education.
- Scholarships give low-income students the opportunity to serve their own communities, reducing the stress of underserved populations.

USOLMT

OUR MISSION

| EDUCATE | ELEVATE | ENCOURAGE | EMPOWER |

USOLMT advocates for the massage therapy profession by educating, elevating, and encouraging professional massage therapists to break with the status quo of our industry and assists by empowering present and potential massage therapists and employers to innovate for future growth and expansion of our industry.

BREAKING THE OLD PARADIGMS

By providing this scholarship, we create benefits for low-income students to serve their own communities in a market where they may currently be priced out. These communities deserve all the benefits of massage therapy.
