

## WEAR OPTIONS

There are several methods of wearing the G-SAFE depending on the accessory you selected. If you need accessories contact us.

Velcro attachment for wearing on the belt

Armband Velcro attachment

Wrist silicone bracelet

## TURN THE WEARABLE ON AND OFF

**To start using the G-SAFE:**  
Disconnect the USB cable behind the G-SAFE

**Start the G-SAFE:**  
Press the bottom button on the side until you hear a 'beep' and feel a vibration

The screen will light up and display the percentage (%) of remaining battery, cell signal strength, and the current date. The G-SAFE is now ready for use.

**Shutting off the G-SAFE:** At the end of the shift, shut off the G-SAFE. Press the bottom button on the side until you hear a beep and vibration. Then connect the magnetic USB cable behind for charging.

## ALERT PROCEDURE

**SOS**

**SOS Alert:**  
Press the SOS button for 3 seconds. You will hear a beep, vibration and see the SOS indication on the screen, which indicates that the notification alert is in progress. If the connection allows it, a call to the answering party will be made.

**FALL DETECTION**

If the G-SAFE detects a fail, it will emit a 'beep' and display MD on the screen. If the connection allows it, after a few seconds, a call will be made to the answering party will follow. All alerts will be sent to responders.
