Once clicked on unit: there is 2 tabs INFO and HISTORY. Info tab provides device info such as sensors, vehicle batterie etc.

The HISTORY tab, will display the overview of stops and trips details

For exemple: at 11:05 Unit was moving at 51 km for 0.67 km for a period of 1 min

By clicking on the 3 dots on the top right, it will display more fonctions.

<u>Share location</u> — This option will provide a temporary access of the unit location on map without the app by providing a specific unique web link you can share.

You can select the duration of this specific web link access
