Introducing a brand new catalogue of innovative and inspired jewellery designs by *Constantine*.

FEATURING:

## THE AUSTRALIAN CITIES ENGAGEMENT RINGS

The Australian flavour is dear to my heart, and this is what inspired this collection. After months of work to bring them to life, I am satisfied that they represent their city of origin perfectly.

For couples coming to Australia for their engagement, each ring signifies the city of romance, where they made their commitment to each other, a lifelong symbol of a magical experience. If living overseas and wishing to purchase a ring via the internet, arrangements can be made to suit any requirements. Each ring is custom made, and wedding rings are fitted to compliment the engagement rings.

A range of Greek Heritage rings is also a sentimental favourite of mine, and now available. I have included a selection of Corporate Jewellery, in Silver, as well.

All diamonds used in the making of *Constantine* engagement rings are certified and accompanied by a digital image valuation, providing assurance of the highest quality for my clients.

This catalogue reflects only a small selection of the *Constantine Jewellery Collection*. As always I specialise in many and varied engagement ring styles and will create a unique ring of your own design, if preferred.

I hope you enjoy this catalogue as much as I did making it.
