Families

Seniors

You are unique! You are special!
No one is like you are right now!
Everyone changes over the seasons
of life. As a professional
photographer for over a decade,
my goal is to capture your
individual character in imagery so
that the person you are right now
can be shared today and
remembered for generations to
come.

For most brides, their wedding day is something they dream about from the time they were a little girl. Can you remember how that dream made you feel? Because you are now the bride of your dreams, iconic bridal portraits will help you remember those fairytale dreams for a lifetime. The wedding day is about the commitment to one another and there will be an abundance of images taken to memorialize the event. But bridal portraits are what keep that little girl's dream alive and allow her to share that dream with her mom, dad, family and friends.

Bridals

Couples

Engagement is small a window of time that impacts the entirety of your life. In that small window a miracle happened. You found love and love found you. To photograph this short season of your lives is to preserve this amazing feeling of new love so that you can pull back time's curtain and revisit this chapter in down the road. To remember the feeling and emotion of new love all over again... priceless

Portrait Sessions are done on location in Ellis and Dallas County Texas. Within these two counties, we will have access to locations, such as an old farm, scenic parks, creek bottoms, small town square, big city skyscrapers, bright lights and fun urban decay buildings. The Roan Gallery will travel anywhere for a client to create an Iconic Image

Family

Pictures connect us to those who came before and the people we love. Someday this portrait will be priceless. No amount of money will take your family back to this moment where I can capture you and put that on paper forever. Time will be stopped for your family and the generations of people that belong to your bloodline. Hanging on your wall and passed down for generations, it will forever be the most valuable thing your family will own. When you are not here, your children will look at this portrait and say, this was my father, this was my grandfather, and this is the legacy of who I am. It will connect them to their own story.

What to wear:

Wear what you are comfortable wearing. If you are not comfortable wearing a suit & tie and then dress up in one on shoot day, your discomfort will show up in your images... I promise! So be comfortable.

Generally, simple standard neutral colors work best. However sometimes you just have to break the simplicity rules and spice things up! Depending on your theme and personality, vibrant colors, patterns and textures can really enhance that Wow Factor.

Location Photo Shoot \$249
Minimum Product Order \$650

Album
Package \$650
