Welcome to the 2026 Schipps Beef Production Sale

Thank you for taking the time to inspect our cattle.

Whether you're a commercial operator or a stud looking to boost your genetic gain, Schipps Red Angus and Doodle Cooma Poll Herefords bulls to be offered online at our Schipps Beef Production Sale—Friday, 24 April 2026, 1pm via AuctionsPlus, are sure to add value to your herd.

With 77 years of breeding, Doodle Cooma Poll Herefords offer reliable, sound structure and feed-efficient bulls ready to work. Progeny by Glendan Park Regal R016, Elite Q150 S191, Kanimbla MXMS051 and Doodle Cooma Trifecta T008 are powerhouse sires delivering high growth and carcass quality with industry-relevant genetics. Elite Q150 S191 was awarded Super Sire status in 2024, bred by Kay Payne, and continues to work exceptionally well in our paddocks today.

Schipps Red Angus bulls on offer showcase fertility, maternal excellence and are easy doing - clients often noting our Red Angus bulls' longevity. We are impressed with our homebred bull DC S027 calves who gives solid EBVs across the page to his progeny and Boonyouin Red Rock R32 Makr32's fertility focus. Notable performance in Lot 22, a Paringa Trademark T14 son.

When the seasons get tough, you need moderate, easy doing cattle more than ever. **These bulls have been pressure-tested since birth through dry times and are built to last.** This resilience is no accident; it's the result of decades of disciplined breeding for functionality, structural integrity and driving profit for clients.

As a family run business, we put every effort and resource into improving our property and cattle. We have a long term commitment to the industry and this is evident in our approach to breeding - we are not after any short term fixes or fads but are focused on improving the traits that will have a benefit to the profitability of our clients.

Doodle Cooma Poll Herefords

ESTABLISHED 1949

Doodle Cooma (Aboriginal for "Sweet Waters") Poll Herefords was founded at Henty NSW in **1949** by Alf Piston, celebrating 77 years of breeding in 2026. Based on the best of Cudgeena females the stud was successful from the start with many other studs founded with Doodle Cooma Females.

In 1971 the stud was purchased by the Schipp family and moved to Wagga Wagga. Daryl took over the management of the stud in 1975, while still at high school, when Hon. Joe Schipp OAM, entered state politics.

NBRS Performance recording was commenced in 1976 along with the purchase of many renowned top sires and A.I programs using the best bulls available- Australian and International.

The stud held a number of successful bull sales through the 90's with many studs and top commercial herds purchasing sires and females.

The millennium drought caught up with Doodle Cooma and the stud cow numbers dropped from around 100 to 80 but a solid core of commercial buyers kept bull sales ticking over. Doodle Cooma commenced a program of selling their top bulls at Wodonga and the Dubbo National Show & Sales with good success. Cattle have been sold to all Eastern states including Tasmania, where a bull purchased at Wodonga won Senior Champion at Hobart Royal Show.

In recent years, Doodle Cooma has re-intensified its A.I program and with strict culling has quickly upgraded the cattle and improved all EBV figures. A balanced approach to breeding has provided us with cattle that can win at shows but have performance to be profitable in a value based commercial beef industry.

The Schipp Family have enjoyed shaping the Doodle Cooma Poll Hereford stud to what it is today, and hope for many more successful years.

SCHIPPS RED ANGUS
A UNIQUE OPPORTUNITY

BOOST YOUR CROSS-BREEDING OPERATION WITH RED ANGUS FERTILITY, TEMPERAMENT & HEAT RESISTANCE

Schipp's Red Angus was established at Wagga Wagga in 1993.

"Red Angus cattle excel for temperament, maternal qualities and carcass characteristics. Red Angus and their crosses are keenly sought after by commercial producers as a cornerstone for their production system.

Red Angus have the ability to adapt to the vast range of the climatic conditions encountered across Australia"- RASA

This is an even line of Red Angus bulls, built to last and suitable for large commercial production systems through to stud heifer joining.

This unique opportunity to view and purchase our run of ready-to-work red bulls, with good breeding values, structure and notable longevity is an opportunity not to be missed.

A FAIR GO

Our Bulls have been run with their mates all their lives. We suggest that you have some cattle in the yards when you get your bull home, allowing them to socialise together and so your new bull is not stressed. We also recommend at least 6 months insurance on your bull.

You have the Schipp family "Fair Go" Guarantee. If you have problems and you do not believe you have had a "Fair Go" from the bull within 6 months after purchase, talk to us and we will help.

Free delivery of your bull within 100ks of Wagga - or, for 4 or more bulls purchased we offer free delivery to Dubbo.

BREEDPLAN - Understanding EBV's

ESTIMATED BREEDING VALUES (EBVs) The EBV is the best estimate of an animal's genetic merit for that trait.

ACCURACY: Accuracy is based on the amount of performance information available on the animal and its close relatives - particularly the number of progeny analysed. The higher the accuracy value the lower the likelihood of change in the animal's EBV as more information is analysed for that animal or its relatives. Even though an EBV with a low accuracy may change in the future, it is still the best estimate of an animal's genetic merit for that trait.

Gestation Length EBV (days) is an estimate of the time from conception to the birth of the calf and is based on ASI and hand mating records. Lower (negative) GL EBVs indicate shorter gestation length and therefore easier calving and increased growth after birth.

Birth Weight EBV (kg) is based on the measured birth weight of progeny, adjusted for dam age. The lower the value the lighter the calf at birth and the lower the likelihood of a difficult birth. This is particularly important when selecting sires for use over heifers.

200-Day Growth EBV (kg) is calculated from the weight of progeny taken between 80 and 300 days of age. Values are adjusted to 200 days and for age of dam. This EBV is the best single estimate of an animal's genetic merit for growth to early ages.

400-Day Weight EBV (kg) is calculated from the weight of progeny taken between 301 and 500 days of age, adjusted to 400 days and for age of dam. This EBV is the best single estimate of an animal's genetic merit for yearling weight.

600-Day Weight EBV (kg) is calculated from the weight of progeny taken between 501 and 900 days of age, adjusted to 600 days and for age of dam. This EBV is the best single estimate of an animal's genetic merit for growth beyond yearling age.

Mature Cow Weight EBV (kg) is based on the cow weight when the calf is weighed for weaning, adjusted to 5 years of age. This EBV is an estimate of the genetic difference in cow weight at 5 years of age and is an indicator of growth at later ages and potential feed maintenance requirements of the females in the breeding herd. Steer breeders wishing to grow animals out to a larger weight may also use the Mature Cow Weight EBV.

Milk EBV (kg) is an estimate of an animal's milking ability. For sires, this EBV indicates the effect of the daughter's milking ability, inherited from the sire, on the 200-day weights of her calves. For dams, it indicates her milking ability.

Scrotal Size EBV (cm) This EBV is an estimate of an animal's genetic merit for scrotal size. There is also a small negative correlation with age of puberty in female progeny and therefore selection for increased scrotal size will result in reduced age at calving of female progeny.

Carcase Weight EBV (kg) is based on abattoir carcass records and is an indicator of the genetic differences in carcass weight at the standard age of 650 days.

Eye Muscle Area EBV (sq cm) This EBV estimates genetic differences in eye muscle area at the 12/13th rib site of a 300 kg dressed carcass. More positive EBVs indicate better muscling on animals. Sires with relatively higher EMA EBVs are expected to produce better muscled and higher percentage yielding progeny at the same carcass weight than will sires with lower EMA EBVs.

Rib Fat and Rump Fat EBVs (mm) are calculated from measurements of subcutaneous fat depth at the 12/13th rib site and the P8 rump site and are adjusted to a standard 300 kg carcass. These EBVs are indicators of the genetic differences in fat distribution on a standard 300 kg carcass. Sires with low, or negative, fat EBVs are expected to produce leaner progeny at any particular carcass weight than will sires with higher EBVs.

Retail Beef Yield EBV (%) indicates genetic differences between animals for retail yield percentage in a standard 300 kg carcass. Sires with larger EBVs are expected to produce progeny with higher yielding carcasses.

Intramuscular Fat EBV (%) is an estimate of the genetic difference in the percentage of intramuscular fat at the 12/13th rib site in a 300 kg carcass. Depending on market targets, larger more positive values are generally more favourable.

For further information please contact the Red Angus Society or Herefords Australia.

SALE INFORMATION

ATTENTION BUYER

INSPECTION DAY

Cattle will be on display at the property of Doodle Cooma Pastoral Company - 'Glandore' 2941 Sturt Highway, Alfredtown NSW 2650 on the designated Inspection day:

Saturday 18th April 2026, 10am - 2pm.

Alternate inspections can be arranged prior to the sale by appointment with agents or contacting Daryl Schipp - 0427 227 590

AGENTS AND BUYER'S SALE REBATES

A rebate of 2.5% will be paid to all agents who introduce their clients or attend the sale with or on behalf of their client and settle within the trading terms of the settling agent. To qualify for this rebate agents must introduce the client in writing to the vendor prior to the sale. A rebate of 1% will be paid to all agents who settle within the trading terms of settling agent but do not introduce their client or attend the sale.

BULL GUARANTEE: Doodle Cooma Pastoral Company Pty Ltd guarantee structural soundness and fertility of all bulls. All bulls have been independently examined for fertility and are structurally sound to the best of our knowledge. If an animal becomes infertile or breaks down due to a reason other than injury or misadventure at anytime in the first 6 months from purchase we will:

1. Provide you with a satisfactory replacement if available or
 2. Issue you with a credit equal to the purchase price less the salvage value that may be used to purchase an animal from Doodle Cooma in the future.
- Any claims are to be accompanied by a certificate from a registered vet.
All vet costs are the responsibility of the purchaser.

BULL REGISTRATION & TRANSFERS

All bulls in the sale are HBR registered through their respective societies, Herefords Australia and Red Angus Australia unless stated otherwise.

The Settling Agent of the sale will conduct individual NLIS transfers to purchasers nominated PIC on registration form. Doodle Cooma Pastoral Co. will transfer eligible bulls into purchasers name through Herefords Australia and Red Angus Australia societies. If possible please advise us of your Herefords Australia and/or Red Angus Australia herd prefix/ Herd ID.

BIDDING / BUYER NUMBER SYSTEM

The bull sale is **online only** on bidding platform, Auctions Plus. Usual protocol to register for bidding is required through this channel.

CARTAGE / FREIGHT

Doodle Cooma Pastoral Co. Pty Ltd will offer free delivery of your bull within 100kms of Wagga.

Or, for 4 or more bulls purchased we will offer free delivery to Dubbo.

Please confirm on sale day, if you have any transport needs.

SALE INFORMATION

ATTENTION BUYER

INSURANCE

Doodle Cooma Pastoral Co. recommends you take out insurance to cover your new purchase. At the completion of the timer on the online sale, the bull you have purchased becomes your responsibility. If they are injured in the yards or on the truck during delivery, it is no longer the responsibility of the vendor.

ANIMAL HEALTH

All bulls have received the following assessments/treatments:

- Ear notched or blood tested Bovine Viral Diarrhea (BVD) negative
- Fully vaccinated with 7 in 1 and drenched to control any internal/external parasites
- Semen Tested
- DNA Tested - sire verified
- Doodle Cooma Pastoral Co. is recorded at JBAS 6. All cattle are free to travel to all areas of NSW, VIC, TAS, SA & QLD.
- 1st dose VIBRIOVAX - a second can be administered on request.
- Covered by Schipps "Fair Go" Guarantee
- ALL RED ANGUS 3-DAY SICKNESS VACCINATED & TICK BLOODED

RECESSIVE GENETIC CONDITION

All lots offered are free of known genetic conditions, either by pedigree or testing.

GST

GST will be added to all of the sale lots.

DISCLAIMER

• Doodle Cooma Pastoral Co., selling agents, officers, and employees while exercising due care, provide all information without responsibility and do not warrant its accuracy. They also accept no responsibility for accidents that occur on or about the venue during inspections. You attend the venue for bull inspections at your own risk.

• People entering upon our property for any purpose whatsoever, including attendance of cattle inspections, do so at their own risk. We are not liable to you for personal injury or death suffered by you and/or for the theft, loss of or damage to any personal property caused or contributed to by us or by any person whether caused or contributed to by our or their negligence, deliberate act or unlawful conduct. "We", "Us" or "Our" refer to the owners, their employees, contractors and agents and each of them. Every care has been taken in compiling this catalogue to ensure accuracy of information supplied, but no responsibility is accepted for any errors which may have occurred.

Animal details included in this catalogue, including but not limited to pedigree, DNA information, Estimated Breeding Values (EBVs) and Index values, are based on information provided by the breeder or owner of the animal. Whilst all reasonable care has been taken to ensure that the information provided in this catalogue was correct at the time of publication, we take no responsibility for the accuracy or completeness of the information, nor for the outcome (including consequential loss) of any action taken based on this information.

AuctionsPlus

How to Register and Bid on AuctionsPlus

1

Go to www.auctionsplus.com.au to register at least 48 hours before the sale.

2

Select "**Sign Up**" in the top right hand corner.

3

Fill out your name, mobile number, email address and create a password.

4

Go to your emails and confirm the account.

5

Return to AuctionsPlus and log in.

6

Select "**Dashboard**" and then select "**Request Approval to Buy**".

7

Fill in buyer details and once completed go back to Dashboard.

8

Complete buyer induction module (approx. 30 minutes).

9

AuctionsPlus will email you to let you know that your account has been approved.

10

Log in on sale day and connect to auction.

11

Bid using the two-step process – unlock the bid button and bid at that price.

12

If you are successful, the selling agent will contact you post sale to organise delivery and payment.

For more information please contact us on:

Phone: (02) 9262 4222

Traits Observed: 200WT,600WT,SS,FAT,EMA,IMF **We started preparing this bull for Sydney Royal but he was the youngest in his class with a huge age spread, so we left him in the paddock. As soft as butter, with beautiful hair type and very easy fleshing. Breed leading EBVs and Indexes and a great pedigree.**

Traits Observed: 200WT,400WT,SS,FAT,EMA,IMF We wanted to support the Red Angus breed at Sydney, so this is a show bull on short preparation. Extremely quiet, sound structure and easy fleshing. We will have a reserve on him, and if he doesn't sell, we will be delighted to have V94 in our stud. Take a look at his EBVs! Top 5% 200day weight, Top 8% 400day, Top 12% 600 Day, Top 17% Carcase weight
